

LIST OF FIGURES

| <i>Figure</i> | <i>Page</i> |
|---|-------------|
| 1-1. Location map of modern Galveston Bay..... | 9 |
| 1-2. Location map of San Jacinto/Buffalo Bayou estuary and Houston Ship Channel above Morgans Point..... | 10 |
| 2-1. Comparative surveys of entrance to Galveston Bay, from Watt (1905)..... | 12 |
| 2-2. Sea-going dredge Gen. C. B. Comstock..... | 13 |
| 2-3. Nautical chart of Galveston Bay ca. 1905..... | 21 |
| 2-4. Shell volume removed from Galveston Bay, pre-1940..... | 34 |
| 3-1. Principal existing channels in Galveston Bay..... | 36 |
| 3-2. Principal existing channels in San Jacinto/Buffalo Bayou system..... | 37 |
| 3-3. Position coordinates for principal channels..... | 39 |
| 3-4. Dredging in 5000-ft segments, Houston Ship Channel from Entrance to Morgans Point, 1945-50..... | 43 |
| 3-5. Dredging in 5000-ft segments, Houston Ship Channel from Entrance to Morgans Point, 1951-55..... | 44 |
| 3-6. Dredging in 5000-ft segments, Houston Ship Channel from Entrance to Morgans Point, 1956-60..... | 45 |
| 3-7. Dredging in 5000-ft segments, Houston Ship Channel from Entrance to Morgans Point, 1961-65..... | 46 |
| 3-8. Dredging in 5000-ft segments, Houston Ship Channel from Entrance to Morgans Point, 1966-69..... | 47 |
| 3-9. Dredging in 5000-ft segments, Houston Ship Channel from Entrance to Morgans Point, 1970-74..... | 48 |
| 3-10. Dredging in 5000-ft segments, Houston Ship Channel from Entrance to Morgans Point, 1975-79..... | 49 |
| 3-11. Dredging in 5000-ft segments, Houston Ship Channel from Entrance to Morgans Point, 1980-85..... | 50 |
| 3-12. Dredging in 5000-ft segments, Houston Ship Channel from Entrance to Morgans Point, 1986-91..... | 51 |
| 3-13. Dredging in 5000-ft segments, Houston Ship Channel above Morgans Point, 1945-49..... | 52 |
| 3-14. Dredging in 5000-ft segments, Houston Ship Channel above Morgans Point, 1950-53..... | 53 |
| 3-15. Dredging in 5000-ft segments, Houston Ship Channel above Morgans Point, 1954-59..... | 54 |
| 3-16. Dredging in 5000-ft segments, Houston Ship Channel above Morgans Point, 1960-64..... | 55 |
| 3-17. Dredging in 5000-ft segments, Houston Ship Channel above Morgans Point, 1965-69..... | 56 |
| 3-18. Dredging in 5000-ft segments, Houston Ship Channel above Morgans Point, 1970-74..... | 57 |
| 3-19. Dredging in 5000-ft segments, Houston Ship Channel above Morgans Point, 1975-79..... | 58 |

LIST OF FIGURES
(continued)

| <i>Figure</i> | <i>Page</i> |
|---|-------------|
| 3-20. Dredging in 5000-ft segments, Houston Ship Channel above Morgans Point, 1980-85..... | 59 |
| 3-21. Dredging in 5000-ft segments, Houston Ship Channel above Morgans Point, 1985-91..... | 60 |
| 3-22. Dredging in 5000-ft segments, Galveston Channel and Texas City Channel, 1942-47..... | 61 |
| 3-23. Dredging in 5000-ft segments, Galveston Channel and Texas City Channel, 1948-51..... | 62 |
| 3-24. Dredging in 5000-ft segments, Galveston Channel and Texas City Channel, 1952-56..... | 63 |
| 3-25. Dredging in 5000-ft segments, Galveston Channel and Texas City Channel, 1957-62..... | 64 |
| 3-26. Dredging in 5000-ft segments, Galveston Channel and Texas City Channel, 1963-66..... | 65 |
| 3-27. Dredging in 5000-ft segments, Galveston Channel and Texas City Channel, 1967-72..... | 66 |
| 3-28. Dredging in 5000-ft segments, Galveston Channel and Texas City Channel, 1973-77..... | 67 |
| 3-29. Dredging in 5000-ft segments, Galveston Channel and Texas City Channel, 1978-82..... | 68 |
| 3-30. Dredging in 5000-ft segments, Galveston Channel and Texas City Channel, 1983-86..... | 69 |
| 3-31. Dredging in 5000-ft segments, Galveston Channel and Texas City Channel, 1987-91..... | 70 |
| 3-32. Dredging in 5000-ft segments, GIWW from High Island to Texas City Channel, 1940-50..... | 71 |
| 3-33. Dredging in 5000-ft segments, GIWW from High Island to Texas City Channel, 1951-60..... | 72 |
| 3-34. Dredging in 5000-ft segments, GIWW from High Island to Texas City Channel, 1961-70..... | 73 |
| 3-35. Dredging in 5000-ft segments, GIWW from High Island to Texas City Channel, 1971-80..... | 74 |
| 3-36. Dredging in 5000-ft segments, GIWW from High Island to Texas City Channel, 1981-90..... | 75 |
| 3-37. Dredging in 5000-ft segments, GIWW from High Island to Bastrop Bayou, 1940-50..... | 76 |
| 3-38. Dredging in 5000-ft segments, GIWW from High Island to Bastrop Bayou, 1951-60..... | 77 |
| 3-39. Dredging in 5000-ft segments, GIWW from High Island to Bastrop Bayou, 1961-71..... | 78 |
| 3-40. Dredging in 5000-ft segments, GIWW from High Island to Bastrop Bayou, 1972-82..... | 79 |
| 3-41. Dredging in 5000-ft segments, GIWW from High Island to Bastrop Bayou, 1983-91..... | 80 |

LIST OF FIGURES
(Continued)

| <i>Figure</i> | <i>Page</i> |
|---|-------------|
| 3-42. Dredging in 5000-ft segments, Anahuac and Trinity River Channels, 1948-58..... | 81 |
| 3-43. Dredging in 5000-ft segments, Anahuac and Trinity River Channels, 1959-69..... | 82 |
| 3-44. Dredging in 5000-ft segments, Anahuac and Trinity River Channels, 1970-80..... | 83 |
| 3-45. Dredging in 5000-ft segments, Anahuac and Trinity River Channels, 1981-91..... | 84 |
| 3-46. Dredging in 5000-ft segments, Channel to Liberty 9 x 150 Project..... | 85 |
| 3-47. Annual dredging in federal projects, 1945-91: Houston Ship Channel..... | 90 |
| 3-48. Annual dredging in federal projects, 1945-91: Houston Ship Channel and Texas City Channel..... | 91 |
| 3-49. Annual dredging in federal projects, 1945-91: GIWW and Galveston Channel..... | 92 |
| 3-50. Annual dredging in federal projects, 1945-91: Trinity River, Chocolate Bay and Clear Lake..... | 93 |
| 3-51. Annual dredging in federal projects, 1945-91: Miscellaneous projects in upper bay..... | 94 |
| 3-52. Total federal dredging in Galveston Bay, 1945-91..... | 95 |
| 3-53. Cumulative federal maintenance dredging in Galveston Bay since 1945..... | 96 |
| 3-54. Current designated and recent (post-WW II) dredged-material disposal areas in Galveston Bay..... | 98 |
| 3-55. Current designated and recent (post-WW II) dredged-material disposal areas in upper Houston Ship Channel..... | 99 |
| 4-1. DOA (Section 10/404) permitting activity in Galveston Bay region, 1940-91..... | 104 |
| 4-2. Section 10/404 permitting since 1940 by region..... | 108 |
| 4-3. Annual Section 10/404 permits in Houston Ship Channel region, above Morgans Point..... | 111 |
| 4-4. Annual Section 10/404 permits in Trinity Bay region..... | 112 |
| 4-5. Annual Section 10/404 permits in West Bay region..... | 113 |
| 4-6. Annual Section 10/404 permits in main body of Galveston Bay (excluding West Bay and Trinity Bay)..... | 114 |
| 4-7. Annual Section 10/404 permits by major areas of Galveston Bay..... | 115 |
| 4-8. Correlation of annual Section 10/404 permitting (permits per year) between different regions of the bay..... | 116 |
| 4-9. Section 10/04 permitting since 1940 by project type..... | 117 |
| 4-10. Proportion of Section 10/404 permits for dredging and filling, since 1940..... | 119 |
| 4-11. Proportion of Section 10/404 permits for shoreline revetment, dikes and other internal flow barriers, and levees, since 1940..... | 120 |

LIST OF FIGURES
(Continued)

| <i>Figure</i> | <i>Page</i> |
|--|-------------|
| 4-12. Proportion of Section 10/404 permits for boat slips and basins, docks and piers, and bulkheads, since 1940. | 121 |
| 4-13. Proportion of Section 10/404 permits for oil & gas, pipelines, and canals and channels, since 1940 | 122 |
| 4-14. NOS data on Atlantic seaboard 404-permit completions. | 125 |
| 4-15. Subsample permits by project type..... | 127 |
| 4-16. Permitting intensity distributed by GBNEP hydrographic segment..... | 130 |
| 4-17. Cumulative 404-permitted dredged volumes distributed by GBNEP hydrographic segment. | 131 |
| 4-18. Permitted cumulative dredged area distributed by GBNEP hydrographic area. | 132 |
| 4-19. Frequency of permits by project scale as volume dredged..... | 133 |
| 4-20. Frequency of permits by project scale as area dredged..... | 134 |
| 4-21. Frequency of permits by project scale as area filled..... | 135 |
| 4-22. Project scale as dredged area versus time..... | 136 |
| 4-23. Frequency of disposal strategies (nonexclusive) in dredge and fill projects. | 137 |
| 4-24. Project scale using open-bay disposal, as dredged area versus time. | 137 |
| 4-25. Project scale by dredged area, affecting previously altered regions..... | 140 |
| 4-26. Project scale by dredged area, affecting aquatic regions..... | 141 |
| 4-27. Project scale by dredged area, affecting nearshore and marsh..... | 142 |
| 5-1. Cumulative dredged volume in Galveston Bay navigation channels..... | 147 |
| 5-2. Cumulative dredged volumes in creation of principal channels over time. | 148 |
| 5-3. Definition sketch for computation of affected width from dimensions of channel..... | 150 |
| 5-4. Shell volume removed from Texas coast and from Galveston Bay, post-1940. (Data of Texas Game, Fish & Oyster Commission, compiled by Kerr, ca. 190)..... | 156 |
| 5-5. Siltation rates in lower Galveston Bay inside main inlet, showing regression lines of trends for 1945-91..... | 158 |
| 5-6. Siltation rates in lower Galveston Bay (below Red Fish Bar), showing regression lines of trends for 1945-91..... | 159 |
| 5-7. Siltation rates in lower Galveston Bay, vicinity of Pelican Island, showing regression lines of trends for 1945-91..... | 160 |
| 5-8. Siltation rates in lower Galveston Bay (above Red Fish Bar), eastern segment, showing regression lines of trends for 1945-91..... | 161 |
| 5-9. Siltation rates in upper Galveston Bay (above Red Fish Bar), western segment, showing regression lines of trends for 1945-91..... | 162 |
| 5-10. Siltation rates in Houston Ship Channel above Morgans Point, showing regression lines of trends for 1945-91..... | 163 |

LIST OF FIGURES
(Continued)

| <i>Figure</i> | <i>Page</i> |
|--|-------------|
| 5-11. Siltation rates in various channel systems, showing regression lines of trends for 1945-91..... | 164 |
| 5-12. Baywide annual maintenance dredging (million cubic yards) since 1900..... | 166 |
| 5-13. Conceptual diagram of modification of ebb currents in Galveston Bay by construction of the Texas City Dike..... | 169 |
| 5-14. Visible-light high-altitude photograph of lower Galveston Bay during ebb. (National Aeronautics and Space Administration)..... | 170 |
| 5-15. Average concentrations of total suspended solids in Galveston Bay, from Ward and Armstrong (1992)..... | 174 |
