

Biography: Joseph A. Janecka, P.E.
Field Operations Support Division
Texas Commission on Environmental Quality

Current Position

Air Program Liaison. Assists field investigators with technical issues regarding emissions events, air permits and rules.

Prior Experience and Education

Joe is a registered Professional Engineer in Texas, licensed under Mechanical and Environmental Branches. His education includes: BS Mechanical Engineering from Texas A&M University, August 1981; MS International Relations from Troy University – European Region, December 1986; and MS Engineering Management from the University of Texas at Austin, May 2011. Joe's work experience includes: United States Air Force from October 1981 - June 1992 where he performed mechanical engineering, construction management, and readiness planning duties worldwide; followed by a short term with Travis Braun consultants in San Antonio; and then he joined the Texas Air Control Board in December 1992. From December 1992 - December 2006 Joe performed permitting functions including development and issuance of Title V Federal Operating Permits, computer database system, and program and guidance development for the air program of the TCEQ and its predecessor agencies. In December 2006, Joe transferred to his current position in the Field Operations Central Office, as an Air Program Liaison.
