

Navarro Mills Lake

Segment: 0817 Trinity River Basin

Basin number: 8
Basin group: B
Water body description: From Navarro Mills Dam in Navarro County up to normal pool elevation of 424.5 feet (impounds Richland Creek)
Water body classification: Classified
Water body type: Reservoir
Water body length / area: 5,070 Acres
Water body uses: Aquatic Life Use, Contact Recreation Use, General Use, Fish Consumption Use, Public Water Supply Use

Standards Not Met and Concerns in Previous Years Assessment Area	Use	Support Status or Concern	Parameter	Category
Entire reservoir	Public Water Supply Use	Threatened	atrazine in finished drinking water	4b

Additional Information: The aquatic life, contact recreation, fish consumption and general uses were not assessed.

This segment was identified as a threatened water body on the 2000 303(d) List due to atrazine in finished drinking water. Because an insufficient number of atrazine samples in surface water were available in 2002 to demonstrate that the standard is no longer threatened, this segment will be identified as threatened for atrazine until sufficient data in surface water are available. There were insufficient data for 2004.
