

**The Surface Water Quality Monitoring Guidance Advisory Work Group Meeting**

**AGENDA**

October 21, 2004

DATE: Thursday, October 21, 2004

TIME: 10 am to 4 pm

LOCATION: TCEQ Austin Campus, Building C, Room 131E... in building adjacent to the last meeting location

10:00 - Welcome and Introductions

10:15 - Assessment of sediment toxicity... discussion of draft document, including the weighting of lines of evidence

11:20 - Proposal to consider including information on threatened and endangered species in the assessment

11:40 - How are concerns, which are identified with small datasets and not adequate for listing, monitored and assessed in subsequent years? TCEQ staff will present a history of concerns, subsequent monitoring, and assessment to address concerns over the adequacy of agency follow up.

12:00 to 1:30 - Lunch on Your Own

1:30 - Use of statistical methods for determining compliance with criteria. Dataset examples using both the binomial method and the Gibbons (confidence interval on a percentile) method

Break

3:00 - Discussion on any new and remaining items from previous meetings

4:00 - Adjourn
