Re: Stakeholder Meeting for Targeted Modification in Scrap Tire Rules  
30 Texas Administrative Code (TAC) Part 1 Chapter 328

Dear Mr. Espino,

It is our opinion that Subchapter F: Management of Used or Scrap Tires, §328.66, paragraphs a-m sufficiently provide more than enough protection for the public and enough involvement of the local government with reference to a LRPUT. Written notification to the fire marshal and local government authority (Mayor and/or County Judge), adjacent land owners, health department, senator and representative with receipt of notification plus publishing in the newspaper is sufficient notification for comments and coordination.

Sincerely,

John Waters  
President  
Tres Pesetas, Inc.
