

H-GAC Update On RFP emission inventories

Graciela Lubertino, PhD

- Got notice to commence on August 2007
- Got guidance on December 16, 2008
- Emission Inventories for RFP SIP – 2002, 2008, 2011, 2014, 2017, 2018 and 2019
- For each of this year it was necessary to run 3 different scenarios:
 - pre-90 controls
 - adjusted based year
 - control strategy

H-GAC Update On RFP emission inventories

- For each year (2008, 2011, 2014, 2017, 2018 and 2019) it was needed to calculate the emission factors for individual control reductions – 8 different scenarios for each year – A total of 48 different runs.
