Overview

This document should be used to verify the CMS data used for HECT Program compliance. This form should be submitted as supporting documentation for each unit for which CMS data is used to determine the annual emissions reported for the HECT Program. A single form may contain information on multiple units. This form should be submitted annually.

This document should be included with your HECT annual compliance report submission.

Under <u>Texas Government Code 559.003(b)</u>, individuals are entitled to receive and review any information we collect by means of a form that they complete and file with the TCEQ in a paper or electronic format on the TCEQ website.

If you have questions on how to fill out this form or about the Highly Reactive Volatile Organic Compound Emissions Cap and Trade Program, please contact us at 512-239-1250.

Company Information

EBT Portfolio Number: Enter the TCEQ-assigned EBT Portfolio Number (PXXXX). You can verify your portfolio number by searching the <u>TCEQ EBT Database</u>.

Company Name: Enter the legal name of the company. The company name on this form should match the name in the <u>TCEQ Central Registry Database</u>.

Site Name: Enter the legal name of site. The site name on this form should match the name in the TCEQ Central Registry Database.

Customer Reference Number (CN): Enter the TCEQ-assigned CN (CNXXXXXXXX). If you do not have a CN, leave this space blank.

Regulated Entity Reference Number (RN): Enter the TCEQ-assigned RN (RNXXXXXXXX). If the TCEQ regulates any facilities at the site and you do not yet have a RN, leave this space blank.

HECT Control Period: Enter the control period for which you are certifying the CMS information.

Verification of CMS Data Used for HECT Program Compliance

Check the first box to certify if for this control period:

- each CMS used to determine HECT emissions for the site complies with the applicablecertification and quality assurance requirements in 30 TAC Chapter 115; and
- when applicable, appropriate substitute emission compliance data was used for any periods when the HRVOC monitor was off-line.

Note that if valid CMS data is available, it must be used to determine emissions.

Check the second box to certify that information is provided in attached <u>Table 1</u> for each CMS with downtime that exceeded 5% of the total annual operating hours of the unit during this control period. If you check this box, you must also submit additional information to explain the excessive downtime and validate the reported emissions for each CMS that exceeded 5% downtime.
