### PATH DEACTIVATION REQUEST LIST

Facility Identification Number (FIN) <sup>5</sup>	Emission Point Number (EPN) <sup>6</sup>	Control Identification Number (CIN) <sup>7</sup>	Path Deactivation Date <sup>8</sup> (MM/DD/YYYY)	Path Comments: Reason(s) for Path Deactivation Requests <sup>9</sup>
TANK1	TANKSTK1		12/31/2015	TANK1 emissions no longer vented to atmosphere; (FIN) TANK1 now vents to (EPN) FLARE
TANK2	TANKSTK2		12/31/2015	TANK2 emissions no longer vented to atmosphere; (FIN) TANK2 now vents to (EPN) FLARE

## ***INSTRUCTIONS: Path Deactivation Request Form***

Use the Path Deactivation Request form to unlink an active FIN from the EPN. Please give a reason for each set of deactivation requests. Path deactivations cannot be completed using the State of Texas Electronic Emissions Reporting System (STEERS)-Annual Emissions Inventory Report (AEIR) system.

Example: (FIN) TANK1 previously vented to the atmosphere through (EPN) TANKSTK1 but now only vents to (EPN) FLARE. Use this form to communicate that path (FIN) TANK1 / (EPN) TANKSTK1 needs be deactivated.

The new path (FIN) TANK1 / (EPN) FLARE can be added using the STEERS-AEIR system. Please see the current Web-based EI Reporting Instructions on the Point Source EI Web page for detailed instructions.

1. **Company Name:** The official name of the owner or operator responsible for submitting the emissions inventory.
2. **Site Name:** The name of the regulated entity.
3. **TCEQ Air Account Number:** The account number as assigned by the TCEQ. If an account number has not been previously assigned, the EAS will assign an air account number based on the location of the regulated entity.
4. **Regulated Entity Reference Number (RN):** The number that Central Registry assigns to a location where a TCEQ-regulated activity occurs. If an RN has not already been assigned, complete a Core Data Form and submit it to Central Registry. Submit a copy of the form with the inventory.
5. **FIN:** The FIN associated with the path to be deactivated.
6. **EPN:** The EPN associated with the path to be deactivated.
7. **CIN:** The CIN associated with the path to be deactivated.
8. **Path Deactivation Date:** The date that the path was deactivated.
9. **Path Comments: REASON(S) FOR PATH DEACTIVATION REQUEST(S)**  
The reason for each requested deactivation.
