

How to Submit 2012 Emissions Inventory Revisions

**Dallas-Fort Worth 2008 Eight-Hour
Ozone Nonattainment Area**

Overview

- What is a revision?
 - Revisions are time sensitive.
- How do I print my Calendar Year (CY) 2012 emissions inventory questionnaire (EIQ) to revise it?
- How do I make emissions corrections to the EIQ pages?
- What else is required to be submitted with the revised EIQ pages?
- When is the due date for these DFW-area CY 2012 emissions inventory (EI) revisions?
- Where do I mail the revisions?

What is a revision?

- A revision must address emissions reporting errors in a previously submitted self-reported EI.
- All revisions requests are subject to the Texas Commission on Environmental Quality (TCEQ) review and approval.
- **The revisions are time sensitive:**
 - Submit by **May 1, 2014**, and
 - Ensure all necessary pages and documentation are included.

What is a revision? (cont.)

For non-electric generating stationary sources to **potentially** be captured in the Dallas Fort-Worth (DFW) Attainment Demonstration (AD) State Implementation Plan (SIP) 2012 base inventory year, the emissions revisions must:

- Be submitted on paper EIQ pages;
- Be submitted by **May 1, 2014**;
- Include a signed and detailed cover page explaining the reason for revisions;
- Include supporting documentation and sample calculations for the revised emissions;
- Include updated criteria emissions totals for the site; and
- Follow the guidance outlined in the *2013 Emissions Inventory Guidelines*, Chapter 7- EI Revisions.

What is a revision? (cont.)

- Revisions are NOT an enforcement discretion or self-audit opportunity for DFW ozone nonattainment area sites to comply with 2012 EI reporting.
- Due to deadlines associated with preparing this AD SIP revision, delinquent initial emissions inventories for the DFW area for CY 2012 will NOT be processed at this time.

How do I print my CY 2012 EIQ?

- The revisions must be submitted on paper EIQ pages.

Revisions can NOT be submitted through web reporting.

- To print the EIQ, follow the detailed instructions and screen shots located at:

<http://www.tceq.texas.gov/assets/public/implementation/air/ie/pseiforms/eiq-print-copy.pdf>

- By following these instructions, a PDF copy of your 2012 EIQ should be emailed to you.

How do I make emissions corrections to the CY 2012 EIQ?

- Print the PDF EIQ that was emailed to you from the TCEQ Central Registry query web site.

Instructions at:

<http://www.tceq.texas.gov/assets/public/implementation/air/ie/pseiforms/eiq-print-copy.pdf>

- EIQs must be printed one-sided.
- Update criteria emissions totals for the site, found on page 3 of the EIQ.

These amounts are not data-entered but will help identify possible entry or summation errors.

What else is required to be submitted with the revised EI Q?

- A signed and detailed cover letter describing the revisions being made and the reason for the revisions.
- Detailed sample calculations and supporting documentation for the revised emissions.
 - Must be provided for each path that is being revised.
- Missing or inadequate sample calculations or supporting documentation could result in processing delays that would prevent the revisions from being incorporated into the DFW AD SIP 2012 base inventory year.

When is the due date for these DFW-area CY 2012 revisions?

- CY 2012 EIQ revisions for the DFW area must be submitted by **May 1, 2014**.
- If the TCEQ accepts the submitted revisions, and the revisions are incorporated into the DFW AD SIP 2012 base year SIP inventory, any future credit generation for sources in the DFW area will be based on this revision.
- If the revisions are **not submitted** by **May 1, 2014**, they will be reviewed and processed per TCEQ policy, but **will not be captured** in the DFW AD SIP 2012 base year SIP inventory.

This would impact future credit generation
