

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

<b>IN THE MATTER OF</b>	§	<b>BEFORE THE</b>
<b>HUNTSMAN PETROCHEMICAL</b>	§	
<b>CORPORATION</b>	§	<b>TEXAS COMMISSION ON</b>
<b>ACCOUNT NO. JE-0052-V</b>	§	
<b>CUSTOMER NO. 600632848</b>	§	
<b>REGULATED ENTITY NO. 100219252</b>	§	<b>ENVIRONMENTAL QUALITY</b>

**DOCKET NO. 2004-0882-SIP**

**AGREED ORDER**

The Texas Commission on Environmental Quality (the Commission or TCEQ) and Huntsman Petrochemical Corporation (the Company) enter into this Agreed Order for the purpose of achieving reductions and to make those reductions enforceable by TCEQ and the United States Environmental Protection Agency (EPA) in the Beaumont/Port Arthur ozone nonattainment area (BPA). The Commission and the Company agree that these reductions by the Company will improve air quality in BPA. As part of this continuing local effort, the Company has voluntarily agreed to undertake and complete the project described below as agreed herein.

The Commission hereby orders the Company to comply with the requirements herein pursuant to §§ 382.011, 382.012, 382.016, 382.023, 382.024, and 382.025 of Texas Health & Safety Code, Chapter 382 (the Texas Clean Air Act [TCAA]), and §§ 101, 110 and 112 of the Federal Clean Air Act, 42 U.S.C. § 7401 et. seq., (FCAA) for the purpose of revising the Texas SIP.

## I. STIPULATIONS

For the purpose of this Agreed Order, the parties have agreed and stipulated as follows:

1. Section 101 of the FCAA states that the one of the purposes of the FCAA is to protect and enhance the quality of the Nation's air resources, and a primary goal of the FCAA is to encourage or otherwise promote reasonable Federal, State and local governmental actions, consistent with the provisions of the FCAA, for pollution prevention. Section 110 of the FCAA requires Texas to submit SIP revisions to the United States Environmental Protection Agency (EPA) for approval and to demonstrate that such SIP revisions provide for protection of the National Ambient Air Quality Standards (NAAQS). Section 112 of the FCAA provides for the control of hazardous air pollutants, and if NAAQS emissions or precursor emissions are affected by a section 112 action, they may be submitted for approval into a SIP.

2. Sections 382.011 and 382.012 of the TCAA provide authority for the Commission to control the quality of the state's air and prepare and develop a general, comprehensive plan for the proper control of the state's air; § 382.016 of the TCAA provides the Commission's authority for measuring and monitoring the emission of air contaminants; and §§ 382.023, 382.024, and 382.025 of the TCAA provide the Commission's authority to issue orders. The issuance of this Order is in compliance with the TCAA.

3. The Commission and the Company agree that the Commission has jurisdiction to enter this Agreed Order, and the Company is subject to the Commission's jurisdiction.

4. The Company agrees to comply with the terms of this Order.

5. The Commission and the Company acknowledge that the Company has entered into this Order voluntarily. Nothing in this Order shall be interpreted as evidence that the Company is causing or contributing to a violation of the NAAQS or is in any respect non-compliant with any

federal, state or local law. This Order shall not impair or adversely affect the Company's compliance history, except that if the Company is subject to enforcement action by the TCEQ for failure to comply with this Order, any such violation shall be subject to the Commission's rules regarding Compliance History in 30 Tex. Admin. Code Chapter 60.

6. The parties agree that this Order will be submitted to the EPA as a revision to the Texas SIP within 60 days of its final execution and approval by the Commission. The parties agree that the emissions reductions achieved pursuant to this Order are not otherwise required by federal or state law and will not be used for the purpose of offsetting or banking future emissions.

7. Nothing in this Order supercedes any requirement of the TCAA or the rules and requirements of the Commission.

8. The Company owns and operates a C4 and Oxides and Olefins plant, located at 2701 Spur 136, Port Neches, Jefferson County, Texas (the plant).

9. The plant consists of one or more sources as defined in § 382.003(12) of the TCAA.

10. Monitoring, recordkeeping, reporting, and testing necessary to demonstrate compliance with this Order shall be conducted as specified in the commission's rules and requirements, or where applicable in any commission authorization, in addition to any requirement contained in this Order to demonstrate compliance with paragraph 14 below, except that records shall be maintained until the latter of five years from the date of this Order or five years from the dates of compliance in paragraph 14. The Company shall make records available upon request by the TCEQ or any other air pollution control agency with jurisdiction.

11. This Order does not authorize or prohibit any modification of the plant listed above.

12. Notwithstanding any other provision of this Order, any delays in or failure of performance by the Company, its contractors or any entity controlled by the Company under this

Order caused by an act of God, war, strike, riot, or other catastrophe beyond the control of the company (Force Majeure), despite the Company's best efforts to anticipate and address the potential Force Majeure event such that the delay or failure of performance is minimized to the extent possible, shall not constitute a violation of this Order. The Company has the burden of establishing that such an event has occurred. In the event the Company's performance under this Order is prevented by the Force Majeure condition, the Company shall notify the TCEQ within seven (7) business days of the causes, all measures taken to avoid and minimize the event and estimated duration of such condition, and shall keep TCEQ advised of the progress in eliminating such condition, and proceed with compliance with this Order as expeditiously as practicable.

13. All notifications required by this Order (unless otherwise specified herein) shall be sent to:

TCEQ Region 10 Office  
3870 Eastex Freeway  
Beaumont, Texas 77703-1892

Notifications required by this Order shall not substitute for any other notification requirement of the Commission or the TCAA.

14. On or before December 31, 2004, the Company will install and configure for use E!CEMS Software to improve data and system reliability regarding electronic data gathered for compliance purposes. The new system is designed to improve tracking of emissions and allow quicker response to potential problems. The Company may, in its sole discretion, replace or upgrade the E!CEMS Software with equipment or software of equivalent or greater capabilities. In the event the Company elects to replace or upgrade the software, it shall provide the Commission with thirty (30) day written notice of its intention and shall not replace or upgrade the software without approval from the Commission. Failure of the Commission to object to a proposed upgrade or

replacement within thirty (30) days of notice from the Company shall be deemed approval of the proposed upgrade or replacement.

## **II. ORDER**

It is therefore ordered by the Texas Commission on Environmental Quality that Huntsman Petrochemical Corporation, shall, from and after the date of this Agreed Order, maintain compliance with this Order.

The provisions of this Agreed Order shall apply to and be binding upon Huntsman Petrochemical Corporation, its successors, assigns and upon those persons in active concert or participation with them. The Authorized Representative of the Company signing this document represents that it is duly authorized to execute this Order and is duly authorized to bind the Company, its officers, directors, employees, agents, servants, authorized representatives, successors, subsequent purchasers and assigns to this Order. Huntsman Petrochemical Corporation is hereby ordered to give notice of this Agreed Order to any successor in interest prior to transfer of ownership of all or any part of its plant, located at 2701 Spur 136, Port Neches, Jefferson County, Texas and within ten days of any such transfer, provide the Texas Commission on Environmental Quality with written notice via certified mail that such notice of transfer has been given.

No extensions of the deadlines in this Order shall be granted.

The Chief Clerk shall provide a copy of this Order to each of the parties.

**PASSED AND APPROVED** at the regular meeting of the Texas Commission on  
Environmental Quality on **DEC 15 2004**
