Map created on June 26, 2009

This map was generated by the Toxicology Division (TD) of the Texas Commission on Environmental Quality. No claims are made to the accuracy or completeness of the data, or to the suitability of the map for a particular use. This APWL area of concern may contain facilities which have not been identified by the TD. For more information regarding this map, please contact the TD at (512)239-1795.

### Where is the Area of Concern Located?

- \* North of LaPorte Freeway/Hwy 225
- \* South of East Freeway/Hwy 73/IH-10
- \* East of East Beltway 8
- \* West of Battleground Road/Lynchburg Crosby

### Why is this Location and Pollutant(s) on the APWL?

Hourly styrene levels in exceedance of the odor air monitoring comparison value (AMCV) have been reported at the CAMS 1015 Lynchburg Ferry air monitoring site with significant frequency since monitoring began at this location in 2003. While there have been significant improvements in the frequency of exceedances of the styrene AMCV over the last four years, the maximum reported concentration for 2008 is somewhat higher than those reported for 2005-2007. Odorous styrene concentrations were highlighted in the 2003-2008 annual ambient air evaluations for Region 12.

Annual evaluations may be accessed here:
