

Orange County Implementation Plan Stakeholder Meeting

(Adams, Cow Bayous)
Sabine River Authority Office
Orange, TX
December 2, 2010

Miles Hall of SRA presided.

Attending from TCEQ:

Jason Leifester and Chip Morris, TMDL Team; Mark Rudolph, Water Quality Division (Permitting).

Purpose:

Discussion of permit renewals, especially in relation to the creation of a regional treatment facility. Creative ways to meet permit limits were discussed. Permits for new or expanded facilities will have more stringent limits. Stringent permit limits will be required because of the low assimilative quality of the water bodies. Some permit renewals are being held up by TCEQ.
