TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Protecting Texas by Reducing and Preventing Pollution

Notice of Public Hearing on Proposed Revisions to 30 TAC Chapter 106

The Texas Commission on Environmental Quality (commission or TCEQ) will conduct a public hearing to receive testimony regarding proposed revisions to 30 Texas Administrative Code (TAC) §106.141, Batch Mixers, under the requirements of Texas Government Code, Chapter 2001, Subchapter B, Rulemaking.

Proposed Rule Amendment

The proposed rulemaking would amend §106.141, to also include medium-sized batch mixing operations used in temporary construction and repair operations. Currently, these operations must apply for a case-by-case new source review permit or meet the requirements of the concrete batch plant standard permit, neither of which were designed to meet the operational needs or environmental concerns associated with medium-sized batch mixers.

Public Hearing

The commission will hold a public hearing on this proposal in Austin on October 2, 2012, at 10:00 a.m., in building E room 201S, at the commission's central office located at 12100 Park 35 Circle. TCEQ will structure the hearing for the receipt of oral or written comments by interested persons. Individuals may present oral statements when called upon in order of registration. Open discussion with the audience will not occur during the hearing; however, commission staff members will be available to discuss the proposal 30 minutes prior to the hearing and will answer questions after the hearing.

Persons who have special communication or other accommodation needs who are planning to attend the hearing should contact Sandy Wong, Office of Legal Services at (512) 239-1802. Make requests as far in advance as possible.
