

## INDEX

### CHAPTER 217 DESIGN CRITERIA FOR DOMESTIC WASTEWATER SYSTEMS

#### SUBCHAPTER A: ADMINISTRATIVE REQUIREMENTS

- §217.1. Applicability.
- §217.2. Definitions.
- §217.3. Purpose.
- §217.4. Variances.
- §217.5. Plans and Specifications General Requirements.
- §217.6. Submittal Requirements and Review Process.
- §217.7. Types of Plans and Specifications Approvals.
- §217.8. Municipality Reviews.
- §217.9. Texas Water Development Board Reviews.
- §217.10. Final Engineering Design Report.
- §217.11. Construction of an Approved Facility.
- §217.12. Substantial Design Changes.
- §217.13. Final Construction Drawings and Technical Specifications.
- §217.14. Completion Notice.
- §217.15. Inspection.
- §217.16. Treatment Facility Operation and Maintenance Manual.
- §217.17. Collection System Records.

#### SUBCHAPTER B: TREATMENT FACILITY DESIGN REQUIREMENTS

- §217.31. Applicability.
- §217.32. Organic Loadings and Flows.
- §217.33. Flow Measurement.
- §217.34. Re-Rating, Expanding, or Materially Altering an Existing Facility.
- §217.35. One Hundred-Year Flood Plain Requirements.
- §217.36. Emergency Power Requirements.
- §217.37. Disinfection System Power Reliability.
- §217.38. Buffer Zones and Odor Abatement.
- §217.39. Facility Use of Reclaimed Water.

#### SUBCHAPTER C: CONVENTIONAL COLLECTION SYSTEMS

- §217.51. Applicability.
- §217.52. Edwards Aquifer
- §217.53. Pipe Design.
- §217.54. Criteria for Laying Pipe.
- §217.55. Manholes and Related Structures.
- §217.56. Trenchless Pipe Installation.
- §217.57. Testing Requirements for Installation of Gravity Collection System Pipes.

- §217.58. Testing Requirements for Manholes.
- §217.59. Lift Station Site Requirements.
- §217.60. Lift Station, Wet Well, and Dry Well Designs.
- §217.61. Lift Station Pumps.
- §217.62. Lift Station Pipes.
- §217.63. Emergency Provisions for Lift Stations.
- §217.64. Materials for Force Main Pipes.
- §217.65. Force Main Pipe Joints.
- §217.66. Identification of Force Main Pipes.
- §217.67. Force Main Design.
- §217.68. Force Main Testing.
- §217.69. Reclaimed Water Facilities.
- §217.70. Storage Tanks for Reclaimed Water.

#### SUBCHAPTER D: ALTERNATIVE COLLECTION SYSTEMS

- §217.91. Edwards Aquifer
- §217.92. Component Sizing.
- §217.93. General Requirements.
- §217.94. Management.
- §217.95. Service Agreements.
- §217.96. Small Diameter Effluent Sewers.
- §217.97. Pressure Sewers.
- §217.98. Vacuum Sewer Systems.
- §217.99. Testing Requirements.
- §217.100. Termination.

#### SUBCHAPTER E: PRELIMINARY TREATMENT UNITS

- §217.121. Coarse Screening Devices.
- §217.122. Fine Screening Devices.
- §217.123. Screenings and Debris Handling.
- §217.124. Grit Removal Systems.
- §217.125. Grit Chambers.
- §217.126. Grit Handling.
- §217.127. Pre-aeration Units.
- §217.128. Flow Equalization Basins.
- §217.129. Primary Clarifiers.

#### SUBCHAPTER F: ACTIVATED SLUDGE SYSTEMS

- §217.151. Requirements for an Aeration Basin.
- §217.152. Requirements for Clarifiers.
- §217.153. Requirements for Both Aeration Basins and Clarifiers.
- §217.154. Aeration Basin and Clarifier Sizing--Traditional Design.
- §217.155. Aeration Equipment Sizing.

- §217.156. Sequencing Batch Reactors.
- §217.157. Membrane Bioreactor Systems.
- §217.158. Solids Management.
- §217.159. Process Control.
- §217.160. Operability and Maintenance Requirements.
- §217.161. Electrical and Instrumentation Systems.
- §217.162. Internal Process Flow Measurement.
- §217.163. Advanced Nutrient Removal.
- §217.164. Aeration Basin and Clarifier Sizing--Volume-Flux Design Method.

#### SUBCHAPTER G: FIXED FILM AND FILTRATION UNITS

- §217.181. Applicability.
- §217.182. Trickling Filters--General Requirements.
- §217.183. Nitrifying Trickling Filters--Additional Requirements.
- §217.184. Dual Treatment Using Trickling Filters.
- §217.185. Rotating Biological Contactors.
- §217.186. Nitrifying Rotating Biological Contactors.
- §217.187. Dual Treatment Utilizing Rotating Biological Contactors.
- §217.188. Submerged Biological Contactor.
- §217.189. Dual Treatment Systems Using Submerged Biological Contactor.
- §217.190. Filtration.
- §217.191. Additional Requirements for Deep Bed, Intermittently Backwashed, Granular Media Filters.
- §217.192. Additional Design Requirements for Multi-Compartmented, Low Head, Automatically Backwashed Filters.
- §217.193. Alternative Designs for Effluent Polishing.

#### SUBCHAPTER H: NATURAL TREATMENT FACILITIES

- §217.201. Applicability.
- §217.202. Primary and Secondary Treatment Units.
- §217.203. Design Criteria for Natural Treatment Facilities.
- §217.204. Imhoff Tanks.
- §217.205. Facultative Lagoons.
- §217.206. Aerated Lagoons.
- §217.207. Stabilization Lagoons.
- §217.208. Evaporative Lagoons.
- §217.209. Constructed Wetlands.
- §217.210. Constructed Wetlands--Free Water System (FWS) Design.
- §217.211. Constructed Wetlands--Subsurface Flow System (SFS) General Design.
- §217.212. Overland Flow Process.
- §217.213. Integrated Facultative Lagoons.

## SUBCHAPTER J: SLUDGE TREATMENT UNITS

- §217.241. General Requirements.
- §217.242. Control of Sludge and Supernatant Volumes.
- §217.243. Sludge Pipes.
- §217.244. Sludge Pumps.
- §217.245. Exclusion of Grit and Grease from Sludge Treatment Units.
- §217.246. Ventilation and Odor Control.
- §217.247. Chemical Pretreatment of Sludge.
- §217.248. Sludge Thickening.
- §217.249. Sludge Stabilization.
- §217.250. Sludge Dewatering.
- §217.251. Sludge Storage.
- §217.252. Final Use or Disposal of Sludge.

## SUBCHAPTER K: CHEMICAL DISINFECTION

- §217.271. Chlorine (Cl<sub>2</sub>) Disinfection and Sulfur Dioxide (SO<sub>2</sub>) Dechlorination System Redundancy Requirements.
- §217.272. Capacity and Sizing of Chlorine (Cl<sub>2</sub>) Disinfection and Sulfur Dioxide (SO<sub>2</sub>) Dechlorination Systems.
- §217.273. Cylinder Requirements for Chlorine (Cl<sub>2</sub>) Disinfection and Sulfur Dioxide (SO<sub>2</sub>) Dechlorination Systems.
- §217.274. Dosage Control for Chlorine (Cl<sub>2</sub>) Disinfection and Sulfur Dioxide (SO<sub>2</sub>) Dechlorination Systems.
- §217.275. Requirements for Chlorine (Cl<sub>2</sub>) Disinfection and Sulfur Dioxide (SO<sub>2</sub>) Dechlorination Systems Using 150 pound (lb) Cylinders.
- §217.276. Requirements for Chlorine (Cl<sub>2</sub>) Disinfection and Sulfur Dioxide (SO<sub>2</sub>) Dechlorination Systems Using Gas Withdrawal from One-Ton Cylinders.
- §217.277. Requirements for Chlorine (Cl<sub>2</sub>) Disinfection and Sulfur Dioxide (SO<sub>2</sub>) Dechlorination Systems Using Liquid Withdrawal from One-Ton Cylinders.
- §217.278. Housing Requirements for Chlorine (Cl<sub>2</sub>) Disinfection and Sulfur Dioxide (SO<sub>2</sub>) Dechlorination Systems.
- §217.279. Equipment and Material Requirements for Chlorine (Cl<sub>2</sub>) Disinfection and Sulfur Dioxide (SO<sub>2</sub>) Dechlorination Systems.
- §217.280. Design of Sodium Hypochlorite (NaClO) Disinfection and Sodium Bisulfite (NaHSO<sub>3</sub>) Dechlorination Systems.
- §217.281. Application of Chlorination and Dechlorination Chemicals.
- §217.282. Other Chemical Disinfection and Dechlorination Processes.
- §217.283. Post-Disinfection Requirements.

## SUBCHAPTER L: ULTRAVIOLET LIGHT DISINFECTION

- §217.291. Ultraviolet Light Disinfection System Definitions.
- §217.292. Ultraviolet Light Disinfection Systems Effluent Limitations.
- §217.293. Ultraviolet Light Disinfection Systems Redundancy Requirements.
- §217.294. Ultraviolet Light Disinfection Systems Monitoring and Alarms.

- §217.295. Ultraviolet Light Disinfection Dosage and System Sizing.
- §217.296. Ultraviolet Light Disinfection Bioassay Test Procedure.
- §217.297. Ultraviolet Light Disinfection Reactor Design.
- §217.298. Ultraviolet Light Disinfection System Cleaning and Maintenance.
- §217.299. Ultraviolet Light Disinfection System Safety.
- §217.300. Post-Disinfection Requirements.

#### SUBCHAPTER M: SAFETY

- §217.321. Safety Design.
- §217.322. Safety and Security Audits.
- §217.323. Hazardous Operation and Maintenance.
- §217.324. Chemical Handling.
- §217.325. Railings, Ladders, Walkways, and Stairways.
- §217.326. Electrical and Fire Code Compliance.
- §217.327. Non-Potable Water.
- §217.328. Facility Access Control.
- §217.329. Color Coding of Pipes.
- §217.330. Public Drinking Water Supply Connections.
- §217.331. Freeze Protection.
- §217.332. Noise Levels.
- §217.333. Confined Spaces.
