Applications that are administratively complete before September 1, 1999 are subject to Subchapter B of this chapter. (d) Notwithstanding subsections (b) or (c) of this section, when the rules governing a particular type of application allow a motion for reconsideration, §50.139(b) - (f) of this title (relating to Motion to Overturn Executive Director's Decision) applies. If the rules under which the executive director evaluates a registration application provide criteria for evaluating the application, the commission's reconsideration will be limited to those criteria.

Effective October 6, 2002

**§50.133. Executive Director Action on Application or WQMP Update.**

(a) The executive director may act on an application subject to this subchapter if:

(1) public notice requirements have been satisfied and the executive director has considered the public comment and filed a response;

(2) the application meets all relevant statutory and administrative criteria;

(3) the application does not raise new issues that require the interpretation of commission policy;

(4) the executive director's staff and public interest counsel do not raise objections; and

(5) the application is uncontested because:

(A) no timely requests for reconsideration or contested case hearing are filed with the chief clerk;

(B) the applicant and the persons who filed timely requests for reconsideration or contested case hearing have agreed in writing to the action to be taken by the executive director;

(C) any timely requests for reconsideration or contested case hearing have been withdrawn in writing or have been denied;

(D) a settlement was reached in a contested case hearing, and the application has been remanded from SOAH; or

(E) a contested case hearing request has been filed but no opportunity for hearing is provided by law.

(6) the application is for any air permit amendment, modification, or renewal that would not result in an increase in allowable emissions and would not result in the emission of an air contaminant not previously emitted.

(b) If the executive director acts on an application, the chief clerk shall mail or otherwise transmit notice of the action and an explanation of the opportunity to file a motion under §50.139 of this title (relating to Motion to Overturn Executive Director's Decision), if applicable. The chief clerk shall mail this notice to the applicant, the public interest counsel, and to other persons who timely filed public comment in response to public notice. The chief clerk need not mail notice of executive director action to persons submitting public comment who have not provided a return mailing address. The chief clerk may mail the information to a representative group of persons when a substantial number of public comments have been submitted. If there were timely filed hearing requests that the commission denied, the chief clerk should also mail to the persons who timely filed hearing requests.

(c) If an application does not meet the requirements of subsection (a) of this section, the executive director shall refer the application to the chief clerk. The chief clerk shall schedule the application for consideration and action by the commission.

(d) The executive director may certify a water quality management plan (WQMP) update if:

and (1) public notice has been issued as required by law and commission rules;

(2) all significant comments received by the end of the comment period are considered by the executive director's staff and, if appropriate, revisions are made to the WQMP in response to those comments.

Adopted September 2, 1999

Effective September 23, 1999

**§50.135. Effective Date of Executive Director Action.**

A permit or other approval is effective when signed by the executive director, unless otherwise specified in the permit.

Adopted September 2, 1999

Effective September 23, 1999

**§50.137. Remand for Action by Executive Director.**

At any time during the processing of an application, if all timely requests for reconsideration or hearing on the application are withdrawn or denied, the commission or the general counsel, or the judge if SOAH holds jurisdiction over the application, may remand the application to the executive director. If the application has been scheduled for a commission meeting, the chief clerk shall remove it from the commission's agenda.

Adopted September 2, 1999

Effective September 23, 1999

**§50.139. Motion to Overturn Executive Director's Decision.**

(a) The applicant, public interest counsel or other person may file with the chief clerk a motion to overturn the executive director's action on an application or water quality management plan (WQMP) update certification. Notwithstanding any other law, a state agency, except a river authority, may not file a motion to overturn the executive director's action on an application that was received by the commission on or after September 1, 2011 unless the state agency is the applicant. Wherever other commission rules refer to a "motion for reconsideration," that term should be considered interchangeable with the term "motion to overturn executive director's decision."

(b) A motion to overturn must be filed no later than 23 days after the date the agency mails notice of the signed permit, approval, or other action of the executive director to the applicant and persons on any required mailing list for the action.

(c) A motion to overturn must be filed no later than 20 days after the date persons who timely commented on the WQMP update are notified of the response to comments and the certified WQMP update. A person is presumed to have been notified

on the third day after the date the notice of the executive director's action is mailed by first class mail.

(d) An action by the executive director under this subchapter is not affected by a motion to overturn filed under this section unless expressly ordered by the commission.

(e) With the agreement of the parties or on their own motion, the commission or the general counsel may, by written order, extend the period of time for filing motions to overturn and for taking action on the motions so long as the period for taking action is not extended beyond 90 days after the date the agency mails notice of the signed permit, approval, or other action of the executive director.

(f) Disposition of motion.

(1) Unless an extension of time is granted, if a motion to overturn is not acted on by the commission within 45 days after the date the agency mails notice of the signed permit, approval, or other action of the executive director, the motion is denied.

(2) In the event of an extension, the motion to overturn is overruled by operation of law on the date fixed by the order, or in the absence of a fixed date, 90 days after the date the agency mails notice of the signed permit, approval, or other action of the executive director.

(g) When a motion to overturn is denied under subsection (f) of this section, a motion for rehearing does not need to be filed as a prerequisite for appeal. Section 80.272 of this title (relating to Motion for Rehearing) and Texas Government Code, §2001.146, regarding motions for rehearing in contested cases do not apply when a motion to overturn is denied. If applicable, the commission decision may be subject to judicial review under Texas Water Code, §5.351, or Texas Health and Safety Code, §§361.321, 382.032, or 401.341.

Adopted April 11, 2012

Effective May 3, 2012

#### **§50.141. Eligibility of Executive Director.**

The executive director may issue Texas pollutant discharge elimination system (TPDES) permits or other TPDES-related approvals only if he or she does not receive, and has not during the previous two years received, a significant portion of income directly or indirectly from permit holders or applicants for a permit.

(1) For the purposes of this section:

(A) "Significant portion of income" means 10% or more of gross personal income for a calendar year, except that it means 50% or more of gross personal

income for a calendar year if the recipient is over 60 years of age and is receiving that portion under retirement pension, or similar arrangement.

(B) "Permit holders or applicants for a permit" does not include any department or agency of a state government, such as a Department of Parks or a Department of Fish and Wildlife.

(C) "Income" includes retirement benefits, consultant fees, and stock dividends.

(2) For purposes of this section, income is not received "directly or indirectly from permit holders or applicants for a permit" when it is derived from mutual fund payments, or from other diversified investments for which the recipient does not know the identity of the primary sources of income.

Adopted September 2, 1999

Effective September 23, 1999

### **§50.143. Withdrawing the Application.**

(a) Upon a request by the applicant at any time before the application is referred to the State Office of Administrative Hearings (SOAH), the executive director shall allow the withdrawal of the application and shall file a written acknowledgment of the withdrawal with the chief clerk. If the application has been scheduled for a commission meeting, the chief clerk shall remove it from the commission's agenda. For purposes of this rule, an application is referred to SOAH when the commission votes during a public meeting for referral or when the executive director or the applicant file a request to refer with the chief clerk under §55.210 of this title (relating to Direct Referrals).

(b) Applications filed before September 1, 2015, for which chief clerk mailed the executive director's preliminary decision and notice of a draft permit under §39.419 of this title (relating to Notice of Application and Preliminary Decision) that are subsequently withdrawn by the applicant are governed by the commission's rules as they existed immediately before September 1, 2015, and those rules are continued in effect for that purpose if the application is refiled with the commission and the executive director determines the resubmitted application is substantially similar to the withdrawn application. For purposes of making this determination, the executive director may consider the following information contained in the withdrawn application and the refiled application:

(1) the name of the applicant;

(2) the location or proposed location of the construction, activity or discharge, to be authorized by the application;

- (3) the air contaminants to be emitted;
- (4) the area to be served by a wastewater treatment facility;
- (5) the volume and nature of the wastewater to be treated by a wastewater treatment facility;
- (6) the volume and type of waste to be disposed;
- (7) changes in methods of treatment or disposal of waste; or
- (8) any other factor the executive director determines is relevant to this determination.

Adopted December 9, 2015

Effective December 31, 2015

**§50.145. Corrections to Permits.**

(a) This section applies to a permit as defined in §3.2 of this title (relating to Definitions), except that it does not apply to air quality permits under Chapter 122 of this title (relating to Federal Operating Permits). The executive director, on his own motion or at the request of the permittee, may make a nonsubstantive correction to a permit either by reissuing the permit or by issuing an endorsement to the permit, without observing formal amendment or public notice procedures. The executive director must notify the permittee that the correction has been made and forward a copy of the endorsement or corrected permit for filing in the agency's official records.

(b) The executive director may issue nonsubstantive permit corrections under this section:

- (1) to correct a clerical or typographical error;
- (2) to change the mailing address of the permittee, if updated information is provided by the permittee;
- (3) if updated information is provided by the permittee, to change the name of an incorporated permittee that amends its articles of incorporation only to reflect a name change, provided that the secretary of state can verify that a change in name alone has occurred;
- (4) to describe more accurately the location of the area certificated under a certificate of convenience and necessity;

(5) to update or redraw maps that have been incorporated by reference in a certificate of convenience and necessity;

(6) to describe more accurately in a water rights permit or certificate of adjudication the boundary of or the point, rate, or period of diversion of water;

(7) to describe more accurately the location of the authorized point or place of discharge, injection, deposit, or disposal of any waste, or the route which any waste follows along the watercourses in the state after being discharged;

(8) to describe more accurately the pattern of discharge or disposal of any waste authorized to be disposed of;

(9) to describe more accurately the character, quality, or quantity of any waste authorized to be disposed of; or

(10) to state more accurately or update any provision in a permit without changing the authorizations or requirements addressed by the provision.

(c) Before the executive director makes a correction to a permit under this section, the executive director shall inform the general counsel of the proposed correction, and shall provide a copy of such information to the public interest counsel. Review by the general counsel and the public interest counsel under this subsection does not apply to a correction described in subsection (b)(2) or (3) of this section. The public interest counsel shall advise the general counsel of any objections to the proposed correction. The general counsel shall act within five business days of receiving the executive director's proposal. If the general counsel determines that the proposed correction should not be issued under this section, the executive director shall not issue the correction, but may set the matter for commission action during a commission meeting. If the general counsel fails to act within five business days, the executive director may issue the correction as proposed.
