

**ATTENTION - The Texas Small Public Water System Training Program is no longer being accepted for licensing fees as of July 23, 2010.**

Thank you for choosing to participate in the Texas Small Public Water System Training Program (TSPWSTP). This program has assisted small public water system operators with costs associated to training and licensing for the past six years. The TSPWSTP was scheduled to conclude on August 31, 2010, or when funds were exhausted, whichever came first. As of July 23, 2010, The Texas Commission on Environmental Quality (TCEQ) will no longer be accepting your TSW ID card for payment, as the funds have been exhausted. If you tested and/or renewed prior to July 23, 2010, your fee should be covered but is not guaranteed. If you are planning on testing or renewing your license after July 23, 2010, you will need to submit the required \$111.00 application fee in the form of a check or money order, made payable to TCEQ, at the time of the exam or renewal.

If you have questions please contact the TCEQ Occupational Licensing Section at 512-239-6133.

Sincerely,

Management Team  
TCEQ, Occupational Licensing Section
