

KEITH McLEROY

Keith is an Associate Training Specialist with the Texas A&M University System's Engineering Extension Service in College Station. He has been with TEEEX for 10 years as an Instructor and author, and is a sought out specialist in water and wastewater chemistry and biology. He began his Instructor duties developing the various hands-on laboratory courses being taught in both The Mobile-Lab and The Advanced Training Lab at TEEEX's Riverside Campus Bryan. Keith contributes to numerous research projects at Texas A&M, and is the Project Lead Investigator on the ECLOX detection technology project for TCEQ. He is also an analytical advisor to the Global Petroleum Research Institute at A&M's Petroleum Engineering Department.

Keith teaches a wide variety of Water & Wastewater continuing education and licensing courses to students all across Texas. Keith is a Licensed Water and Wastewater Operator and has worked as a water/wastewater treatment operator and laboratory technician for 16 years before being asked to join the faculty as an Instructor. Keith studied Microbiology at Texas Tech University and holds several environmental and laboratory certifications.
