Dear Mr. Poe:

As requested in your letter submitted on August 10, 2010, the above-referenced federal operating permit (FOP) revision application submitted on February 18, 2010 for the Limestone Electric Generating Station site has been withdrawn. Based on your submission, we understand that you do not want to proceed with the processing of the significant revision at this time for the above-mentioned site. Therefore, a response will not be provided for the U.S. Environmental Protection Agency objection received on June 11, 2010 for the significant revision project.

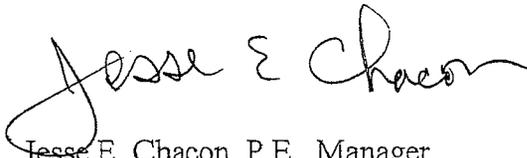

Consistent with Title 30 Texas Administrative Code Chapter 122, Subchapter C, the permit holder shall submit an application to the Air Permits Division (APD) for a revision to an FOP for those activities at a site which change, add, or remove one or more FOP terms or conditions. The permit holder shall also submit an application to APD for a revision to a permit to address the following: the adoption of an applicable requirement previously designated as federally enforceable only; the promulgation of a new applicable requirement; the adoption of a new state-only requirement; or a change in a state-only designation.

If you have any questions regarding this notice, please contact Ms. Monica Cates at (512) 239-6369.
