

Biography: Megan Hamilton
Air Permits Division
Texas Commission on Environmental Quality

Current Position

Megan is currently the team leader of the Rule and Permit Support Team where she supervises the team responsible for developing and maintaining rules, standard operating permits, and general operating permits; arranging and providing technical training, professional development, and outreach activities; and liaising with other parts of the agency for public notice, compliance history, and response to comments.

Prior Experience and Education

Megan received a Bachelor of Science in Applied Meteorology from Embry-Riddle Aeronautical University and a Master of Science in Meteorology from Florida Institute of Technology. She is currently pursuing her Master of Business Administration from Texas A&M-Commerce University. She began working for the TCEQ in 2008 as a modeling and assessment specialist with the Air Dispersion Modeling Team of the Air Permits Division. In December 2011, she became team leader of the Rule and Permit Support Team.
