

Biography: Joe Martin

Water Quality Standards
Water Quality Planning Division
Texas Commission on Environmental Quality

Current Position

Joe Martin is the Work Leader for the Water Quality Standards Group, which defines the uses and appropriate instream criteria for determining the quality of the state's streams, rivers, lakes, reservoirs, and estuaries.

Education and Prior Experience

Joe received a Bachelor of Science degree and a Master of Science degree in Aquatic Biology from Texas State University. Joe has worked as an aquatic scientist with TCEQ for 6 years, and has experience in water quality standards development, sampling fish and benthic invertebrates, and habitat assessment. Prior to joining TCEQ, Joe worked for Texas Parks and Wildlife and in a water lab determining nutrient concentrations in surface water.
