

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF A NEW PROPOSED GENERAL PERMIT AUTHORIZING THE DISPOSAL OF WASTEWATER

The Texas Commission on Environmental Quality (TCEQ) is proposing a new General Permit WQG100000, which would authorize wastewater generated by industrial or water treatment facilities to be disposed of by evaporation from surface impoundments adjacent to water in the state. The proposed general permit would not authorize discharge of wastewater into water in the state. The proposed general permit would apply to the entire state of Texas. General permits are authorized by Texas Water Code, §26.040.

PROPOSED GENERAL PERMIT. The executive director has prepared a draft general permit that would authorize the disposal of wastewater by evaporation from surface impoundments adjacent to water in the state. The draft general permit identifies wastewater characteristics and other criteria that would prevent a facility from obtaining authorization under the draft permit. The executive director proposes to require regulated facilities to submit a Notice of Intent to obtain authorization for disposal.

The TCEQ executive director has reviewed this action for consistency with the Texas Coastal Management Program (CMP) goals and policies in accordance with the regulations of the General Land Office, and has determined that the action is consistent with the applicable CMP goals and policies.

A copy of the proposed general permit and fact sheet are available for viewing and copying at the TCEQ Office of the Chief Clerk located at the TCEQ's Austin office, at 12100 Park 35 Circle, Building F. These documents are also available at the TCEQ's 16 regional offices and on the TCEQ Web site at
