Notice of Public Meeting

The Texas Commission on Environmental Quality (TCEQ or agency) will conduct a Public Meeting regarding the Angus Road Groundwater Site (the site) located in Odessa, Ector County, Texas.

The Public Meeting will be held on:

Thursday, August 5th, 2010, at 7:00 p.m. The meeting will be held in Council Chambers of Odessa City Hall, 411 West 8th Street in Odessa, Texas.

TCEQ staff will be presenting information regarding a groundwater study in the vicinity of the 4300 block of Angus Road in Ector County Texas (See Map on Back).

Site Description and Background

Water samples have been collected from wells as part of an investigation of the groundwater in the area. The water well samples indicate the presence of 1,2-Dichloroethane, 1,2,3-Trichloropropane, and Manganese above the U.S. Environmental Protection Agency health based levels. The study has found that the groundwater plume underlies an area approximately bounded by:

- West 47th Street on the north;
- Cessna Avenue and Brahma Road on the East;
- Kermit Highway on the south; and
- Johnson Street on the west

The TCEQ intends to list the site on the State Registry of Superfund Sites. The State Registry identifies facilities that may constitute an imminent and substantial endangerment to public health and safety or the environment due to a release or threatened release of hazardous substances into the environment.

The TCEQ staff will be conducting a public meeting on August 5, 2010 to provide area residents and property owners with additional information concerning the site.

For more information on the site listing, you may contact TCEQ personnel listed under Site Contacts.
