

Gilbert (Bert) Schutza

**Corrosion Protection Division
Tanknology, Inc.
Austin, TX**

Bert Schutza is the director of cathodic protection at Tanknology. His main responsibilities include training and supervising corrosion technicians, managing the corrosion-engineering department, writing cathodic protection reports, designing cathodic protection systems for USTs, and assisting UST owners with corrosion protection compliance.

He is a NACE International Certified Cathodic Protection Specialist and Senior Corrosion Technologist and has an Associates of Science Degree from Kilgore College, Kilgore, Texas in corrosion technology. Bert has over 20 years of experience in testing, maintaining, and designing cathodic protection systems for underground storage tanks, pipelines, and above ground storage tanks.
