

## Rocky Creek (unclassified water body)

Segment: 1217A Brazos River Basin

**Basin number:** 12  
**Basin group:** D  
**Water body description:** From the confluence of the Lampasas River north of Okalla in Burnet County to the confluences of the North and South Rocky Creeks south of Oakalla in Burnet County  
**Water body classification:** Unclassified  
**Water body type:** Freshwater Stream  
**Water body length / area:** 7 Miles  
**Water body uses:** Aquatic Life Use, Contact Recreation Use, Fish Consumption Use

| Standards Not Met and Concerns in Previous Years<br>Assessment Area | Use              | Support Status or Concern | Parameter                  | Category |
|---|------------------|---------------------------|----------------------------|----------|
| Entire creek  | Aquatic Life Use | Not Supporting            | depressed dissolved oxygen | 5b       |

**Parameters Removed from the 2000 303(d) List:** bacteria

**Additional Information:** The contact recreation use is fully supported. The fish consumption use was not assessed.

This water body was identified on the 2000 303(d) List as not supporting the aquatic life use due to depressed dissolved oxygen. Because an insufficient number of 24-hour dissolved oxygen values were available in 2002 to determine if the criterion is supported, this water body will be identified as not meeting the standard for dissolved oxygen until sufficient 24-hour measurements are available to demonstrate support of the criterion.
