From the confluence of McKnight Branch to the confluence of Cottonwood Ck.	Contact Recreation Use	Use Concern-Limited Data	bacteria	
Upper 11 miles of segment	Aquatic Life Use	Partially Supporting	depressed dissolved oxygen	5b

Additional Information: The public water supply and general uses are fully supported. The contact recreation and fish consumption uses were not assessed.

This segment was identified on the 2000 303(d) List as partially supporting the aquatic life use due to depressed dissolved oxygen. Because an insufficient number of 24-hour dissolved oxygen values were available in 2002 to determine if the criterion is supported, this segment will be identified as not meeting the standard for dissolved oxygen until sufficient 24-hour measurements are available to demonstrate support of the criterion.
