Original Equipment Manufacturer (OEM) Information Request Form for Chassis-Certified Natural Gas Vehicle Conversion Systems

Texas Natural Gas Vehicle Grant Program (TNGVGP)

Texas Emissions Reduction Plan (TERP)
Texas Commission on Environmental Quality (TCEQ)

If you have questions on how to fill out this information request form, please contact us at 512-239-4950 or TERP@tceq.texas.gov.

TCEQ is requesting information from manufacturers of eligible natural gas vehicles and engines under the Texas Natural Gas Vehicle Grant Program (TNGVGP). TCEQ will use this information to compile a preapproved list of natural gas vehicles, engines, and conversion systems that are eligible for funding under the TNGVGP. This request is only for entities listed as the manufacturer on the U.S. Environmental Protection Agency (EPA) Certificate of Conformity issued to certify the emissions of the vehicle or engine.

Chassis-Certified Natural Gas Vehicle Conversion Systems: Only systems for converting a chassis-certified vehicle, after initial manufacture as part of the original flow-through process before first sale of the new vehicle, to run on compressed natural gas (CNG), liquefied natural gas (LNG), or liquefied petroleum gas (LPG) with a model year of 2017 or newer and certified to the current federal emission standards should be listed on this form. Refer to the TNGVGP webpage to view the information request forms for the other types of natural gas vehicles and engines that may qualify under this program.

Submission Period: Responses will be accepted for consideration by TCEQ on a continuous basis via electronic mail at TNGVGP-Apply@tceq.texas.gov or via mail at one of TCEQ's addresses. Responses sent via electronic mail should include 'TNGVGP Info Request' in the subject line.

Section 2: Chassis-Certified Vehicle Conversion System Information

This form should be used for systems that convert a Chassis-Certified vehicle after initial manufacture as part of a flow-through process to run on CNG, LNG, or LPG before first sale of the new vehicle. The converted vehicle must be certified by the Environmental Protection Agency (EPA) to the current federal emission standards. For more information about this form, refer to the TNGVGP Information Request Forms Instructions.

List up to 5 Chassis-Certified Vehicle Conversion Systems.

Description	Vehicle Conversion System	Vehicle Conversion System	Vehicle Conversion System	Vehicle Conversion System	Vehicle Conversion System
Conversion System Test Group/Family (refer to CARB¹ or EPA)	- 3	- 3		2,000	2,000
Conversion System Make					
Conversion System Model					
Original Vehicle Test Group/Family (refer to CARB or EPA)					
Vehicle Make					
Vehicle Model					
Vehicle Description (i.e. Passenger Van; Delivery Truck)					
Vehicle Model Year					
Engine Make					
Engine Model					
Engine Model Year					
Engine Displacement in Liters					
Fuel Type(s) (CNG, LNG, LPG, CNG/Diesel, LNG/Diesel)					
Fuel System (Dedicated or Dual-Fuel; Bi-Fuel is <i>not</i> eligible)					
If Dual-Fuel, maximum % displacement of diesel fuel (must be at least 60%)					
Vehicle Classification (MDPV, or HD Class 2b or 3)					
Gross Vehicle Weight Rating (GVWR)					
Federal NO _X Emissions BIN in grams/mile (refer to CARB or EPA)					
Is the system sold as an authorized flow-thru process with the purchase of a new vehicle?					
Is the system sold for repower or conversion of an existing vehicle after sale?					

REQUIRED DOCUMENTATION

The following supporting documentation must be submitted with this form to be considered. Please mark the box that corresponds with the documentation type included with this form. Mark all that apply.

EPA Certificate of Conformity or CARB Executive Order for the Conversion System(s) listed on this form - Required	
EPA Certificate of Conformity for the Original Chassis-Certified vehicle(s) listed on this form – if available	
CARB Executive Order for the Original Chassis-Certified vehicle(s) listed on this form – if available
