## **Landscape Irrigation Plan Check**

## Minimum Design Requirements - Texas Administrative Code Title 30 Ch. 344.61

Type of Installation
☐ Residential ☐ Commercial ☐ Golf Course ☐ Athletic Field ☐ Park ☐ Other
☐ New Design ☐ Redlined Revisions ☐ Other
☐ Irrigation plan's legible and drawn to scale; scale used
Minimum Requirements
☐ Legible and valid irrigators seal, signature, date signed and license number.
☐ Physical features: trees, slopes, and impervious surfaces, sidewalks, driveways, fences, wells, on-site sewage facilities, buildings, flower beds.
□ North Arrow □ Legend
$\square$ Boundaries of area to be irrigated and areas not to be irrigated clearly identified.
☐ Zone flow measurements for each zone.
☐ Location of controller(s).
$\square$ Location and type of sensors used (e.g., rain and freeze system).
$\square$ Location, type, and size of water source(s).
$\square$ Location, type, and size of the backflow prevention assembly.
$\square$ Location, type, and size of water emission devices.
$\Box$ Location, type, and size of all valves (e.g., isolation valve, master valve, or zone valve).
$\square$ Location, type, and size of pressure regulation components.
$\square$ Location, type, and size of main line and lateral pipe material.
☐ Design pressure calculation indicating operating pressure with total pressure losses to the water source. Provide hydraulic calculations indicating pressure at largest and furthest zones from the water source.
