### **Job Description:**

Provides assistance on technical work related to compliance with state and federal drinking water regulations for the Public Drinking Water Section of the Texas Commission on Environmental Quality (TCEQ). Assists in implementing drinking water regulatory compliance programs which involve reviewing, analyzing, and conducting quality control on data submitted by public water systems and certified laboratories to determine compliance with drinking water quality regulations. Identifies systems with violations of the standards, and determines and initiates appropriate enforcement and follow-up actions. Maintains and develops data related to drinking water quality and public water system inventory, following business processes and standard operating procedures for data management; maintains quality control. Provides technical and compliance assistance related to the TCEQ rules, regulations, and standards for drinking water quality for other agency staff, governmental entities, industry, and the general public. Provides customer service through presentations, phone calls, letters, and emails, ensuring complete, accurate, and timely information. Writes, edits, and/or reviews various reports, compliance recommendations, correspondence, and standard operating procedures. Works with team and section staff to analyze, document, and streamline business processes.
