Job Description:
Analyzes, plans, administers, maintains and designs the implementation for Linux based applications and systems environments, for the Texas Commission on Environmental Quality (TCEQ). Performs advanced analysis, problem resolution, design, and implantation of agency Linux systems. Provides support for Linux based critical technology applications and system environments. Coordinates with contractors, stakeholder and other technical teams to determine requirements for the installation, operation and maintenance of applications and Linux server environments. Leads, plans, documents, schedules, and coordinates systems patching, and application releases and upgrades. Coordinates with contractors, stakeholders, management, and other technical teams to ensure smooth transitions to upgraded systems. Develops and maintains procedures for IT systems administration, and exhibits a good understanding of the basics of systems administration across different operating systems. Documents processes and technical specifications for systems and applications; provides cross training and consulting to technical staff. Responds to problem calls, troubleshoots problems, and provides customer support and technical assistance for enterprise application systems. Collaborates with Data Center staff, other TCEQ technical support staff, and vendors to resolve enterprise application malfunctions. Plans, documents, and implements, and/or leads the implementation of operating systems and software security measures.
Military Occupational Specialty (MOS) Codes:

Minimum Qualifications:
A bachelor’s degree in an information technologies or related field from an accredited college or university (COPY OF OFFICIAL TRANSCRIPT REQUIRED WITH APPLICATION), plus six years of full-time experience in computer systems administration, network administration, or operating system programming in an open systems environment.
OR Completion of 15 semester hours in information technologies from an accredited college or university (COPY OF OFFICIAL TRANSCRIPT REQUIRED WITH APPLICATION), plus seven years of full-time experience in computer system administration, network administration, or operating system programming in an open system programming environment.
OR Eight years of full-time experience in computer systems administration, network administration, or operating system programming in an open systems environment.
All of the above minimum qualifications must include successful completion of two years as a full-time senior UNIX, LINUX, Novell, or Windows Server System Administrator in a multi-platform environment.

Preferred Requirements:
Experience installing, maintaining or administering Linux or UNIX operating system environments.
Experience with configuring or administering enterprise applications in a Linux/UNIX environment.
Experience with configuring or administering enterprise applications in a Microsoft environment.

Special Requirements:
Moving up to 40 pounds of computer equipment.
Traveling up to 5% of the time.

Condition of Employment:
TCEQ will verify Selective Service registration for males born on or after January 1, 1960. If exempt from Selective Service registration selected candidate must provide proof of exemption on first day of employment. Offers of employment are contingent on the candidate having legal authorization to work for the TCEQ. TCEQ will conduct a criminal history records search on candidates selected for posted vacancies. Only applicants who are interviewed will receive written non-selection notification.

To Apply:
Email a State of Texas application to jobs@tceq.texas.gov; or mail to TCEQ Human Resources & Staff Services, P.O. Box 13087, MC-116 Austin, TX 78711-3087; or submit in person, at 12100 Park 35 Circle, Bldg. A, Austin, Texas 78753 by the close date. An electronically signed copy is acceptable.

In compliance with ADA, if you need any special accommodations during the employment process, please contact HRSS for assistance at (512) 239-0102.
