Job Description:  
Performs highly advanced air quality technical/scientific research and planning to support Federal Clean Air Act state implementation plans (SIP) and actions directed through legislative or commission action for the Air Quality Division of the Texas Commission on Environmental Quality (TCEQ). Prepares and oversees the preparation and planning for highly complex reports, studies, and other technical documents. Conducts research on complex air quality issues and provides consultation on technical aspects of air quality planning projects. Identifies, researches, and evaluates the implications of new scientific developments regarding air quality implementation plans, standards, and regulations. Oversees the design and planning of research projects carried out through contract or grants with vendors. Serves as a liaison with federal, state, and local agencies and stakeholder groups in matters concerning air quality scientific plans; leads and participates in technical meetings.

Military Occupational Specialty (MOS) Codes:  
35F, 59A, IS, OS, 641X-LDO, 21, 25, MGT15, MGT17, 3450, 2G0X1, 16RX, and 86M0.
**Minimum Qualifications:**
A bachelor’s degree from an accredited college or university (COPY OF OFFICIAL TRANSCRIPT REQUIRED WITH APPLICATION), plus four years of full-time experience in planning, research, program analysis, or program management.*
A graduate degree in planning, economics, business or public administration, political science, policy analysis, or environmental management, environmental science or a closely related field from an accredited college or university (COPY OF OFFICIAL TRANSCRIPT REQUIRED WITH APPLICATION) may substitute for one year of experience.
* Program management is work where primary duties consist of planning, organizing, administering, and coordinating and/or overseeing projects related to a program of an organization.

**Preferred Requirements:**
Experience developing written documents on air quality technical/scientific issues within a local, state or federal air quality program.
Experience interpreting or implementing rules, technical guidance, policies and/or processes related to state implementation plan air quality modeling or data analysis.
Experience planning, coordinating or overseeing projects and/or activities related to state implementation plan air quality modeling or data analysis.

**Special Requirements:**
Moving up to 10 pounds of paper files and binders.
Traveling up to 20% of the time.

**Condition of Employment:**
TCEQ will verify Selective Service registration for males born on or after January 1, 1960. If exempt from Selective Service registration selected candidate must provide proof of exemption on first day of employment. Offers of employment are contingent on the candidate having legal authorization to work for the TCEQ. TCEQ will conduct a criminal history records search on candidates selected for posted vacancies. Only applicants who are interviewed will receive written non-selection notification.

**To Apply:**
Email a State of Texas application to jobs@tceq.texas.gov; or mail to TCEQ Human Resources & Staff Services, P.O. Box 13087, MC-116 Austin, TX 78711-3087; or submit in person, at 12100 Park 35 Circle, Bldg. A, Austin, Texas 78753 by the close date. An electronically signed copy is acceptable.

In compliance with ADA, if you need any special accommodations during the employment process, please contact HRSS for assistance at (512) 239-0102.
