Texas Commission on Environmental Quality

Legislative Wrap-Up Report

81st Texas Legislature

June 2009
Executive Summary

During the 81st Legislative Session, the Legislature addressed several of Texas Commission on Environmental Quality’s programs and priorities. Below is a summary of some of the actions taken affecting the agency’s appropriation for various programs and increases in FTEs, as well as examples of some key legislation that passed.

Program Appropriations
The amount of appropriations we receive for the various agency programs shapes our priorities for the upcoming biennium.

Under the Appropriations Act (SB 1), the agency will receive $964.2 million for the 2010-2011 biennium.

These amounts include approximately $33.2 million of the $37.6 million the agency requested in exceptional items. Our agency received additional funding in key areas such as: the implementation of the new federal ozone standard; enhancements to our dam safety program; an increase in cleanup activities in the state Superfund program; an increase in grant funds available for air quality planning; and, to address several significant information resource needs.

FTEs
The Legislature, through SB 1, also authorized an additional 66 FTEs for exceptional items and contingency riders for the upcoming biennium. The additional FTEs are primarily provided for: Chief Engineer’s Office, Office of Compliance and Enforcement, and Office of Permitting & Registration.

Key Legislation
During the session, the agency tracked 957 bills, and of those, the Legislature adopted approximately 235 bills. Of these, 164 are utility and/or district creation bills. Below are examples of some key legislation that passed this session:

- **HB 1433** - Increases the statutory cap for the annual water quality fee for wastewater discharge permit holders and water right users through permit or contract from $75,000 to $100,000 beginning September 1, 2009. The cap can be increased in subsequent years based on the CPI, up to a maximum of $150,000.

- **HB 1796** - Establishes the New Technology Implementation Grant (NTIG) program, and requires the TCEQ to establish and administer a new technology implementation grant program to implement new technologies to reduce emissions from facilities and other stationary sources located within the state.

- **HB 3544** - Authorizes the TCEQ to utilize electronic means of transmission for information issued or sent by the agency.

- **SB 361** - Requires a retail public utility, exempt utility, or provider of wholesale sewer service or potable water service that furnishes water or sewer service to more than one customer to ensure the operation of its water and sewer systems during an extended power outage. Each service provider is required to submit an emergency preparedness plan to the TCEQ for review and approval.

- **SB 876** - Requires the TCEQ to perform annual soil sampling at CAFOs in a major sole source impairment zone (parts of the North Bosque Watershed).

- **SB 1757** - Directs the TCEQ to perform a study and make recommendations on: the methods currently used in the state to safely handle and dispose of pharmaceuticals, medical sharps, and other potentially dangerous medical waste; alternative methods including methods used in other states; and effects on public health and the environment of the various methods.

- **SB 1759** - Establishes a Texas Clean Fleet Program (CFP) to be administered by TCEQ, funding it with five percent of the 87.5 percent of the Emission Reduction Incentives Grant funds within TERP.

Supplemental Appropriation for 2009

With the passage of HB 4586, TCEQ’s appropriation in ’09 is increased by the following amounts:

- $2 million from Account #550 to continue on-going activities at Ballard Pits, a state superfund site in Nueces County
- $37 million from Account #5071 for the TERP program
- $4.6 million from General Revenue to refund costs related to natural disasters

Also included is an $800 retention payment to be issued August 2009 to state employees making less than $100,000, and continuously employed by the agency from March 31, 2009 through August 1, 2009.
Appropriations, Fees & Taxes

HB 1433  by Lucio III  Senate Sponsor: Averitt

Relating to the amount of the annual water quality fee imposed on holders of wastewater discharge permits and on users of water.

Increases the statutory cap for the annual water quality fee for wastewater discharge permit holders and water right users through permit or contract from $75,000 to $100,000 beginning on September 1, 2009. The cap can be increased in subsequent years based on the CPI, up to a maximum of $150,000.

Effective Date: September 1, 2009

HB 2729  by Pitts  Senate Sponsor: Ogden

Relating to directing payment, after approval, of certain miscellaneous claims and judgments against the state out of funds designated by this Act.

Authorizes TCEQ to pay certain outstanding claims from existing fund balances.

Effective Date: September 1, 2009

HB 3206  by Edwards  Senate Sponsor: Ellis

Relating to the implementation of the exemption from ad valorem taxation for pollution control property.

Amends current law relating to the implementation of the exemption from ad valorem taxation for pollution control property (Proposition 2). Specifically, makes changes to Proposition 2 as follows: 1) requires TCEQ to uniformly apply the standards and methods for making determinations to all applications, including those applications filed under Subsection (k), i.e., Tier IV applications, in current statute and 2) requires the creation of a permanent advisory committee.

Effective Date: September 1, 2009

HB 3765  by Paxton  Senate Sponsor: Averitt

Relating to the use of hazardous and solid waste remediation fee funds for lead-acid battery recycling activities.

Provides that the TCEQ may use up to 10 percent of the fees collected on batteries under section 361.138 of the Health and Safety Code (deposited in the Hazardous and Solid Waste Remediation Fee Account #550) for lead-acid battery-related programs. Funds from Account #550 can now be used to support innovative technologies in lead-acid battery recycling.

Effective Date: September 1, 2009
HB 4102  by Eiland  Senate Sponsor: Carona

Relating to the disaster contingency fund.

Allows a state or local government entity that participates in disaster preparation or disaster recovery to request and receive funding from the disaster contingency fund to pay for costs incurred by the state or local government entity in preparing for or recovering from a disaster. If state or local government entities receive reimbursement from the federal government, then the entities would be required to reimburse the disaster contingency fund by the amount received from the federal government.

Effective Date:  June 19, 2009

HB 4583  by Pitts  Senate Sponsor: Ogden

Relating to the creation and re-creation of funds and accounts in the state treasury, the dedication and rededication of revenue, and the exemption of unappropriated money from use for general governmental purposes.

Includes the new Advanced Clean Energy Project Fund as a dedicated account.

Effective Date:  June 19, 2009

HB 4586  by Pitts  Senate Sponsor: Ogden

Relating to making supplemental appropriations and giving direction and adjustment authority regarding appropriations.

Provides a supplemental appropriation to state agencies and institutions of higher education for FY 2009. Appropriations to the TCEQ include:

- $2 million from Account #550 for clean up activities at Ballard Pits, a state superfund site in Nueces County;
- $37 million from TERP Account #4071 for TERP program; and
- $4.6 million from General Revenue Account #001 for reimbursement of costs associated with natural disasters.

Also included is a one-time $800 retention payment to be paid in August 2009 to all state employees whose salary is less than $100,000, and has been continuously employed by the agency from March 31, 2009, through August 1, 2009.

Effective Date:  June 19, 2009

SB 1  by Ogden  House Sponsor: Pitts

Relating to General Appropriations for the 2010-2011 biennium.

TCEQ Appropriation is approximately $965 million for the 2010-2011 biennium.

Effective Date:  September 1, 2009

Relating to the accrual of vacation and sick leave for certain state employees on a military leave of absence.

Amends Section 661.904, Government Code, to allow a state employee called to military service to continue to accrue vacation and sick leave even when the person is considered to be on unpaid leave because he or she is not entitled to differential pay.

Effective Date: November 3, 2009

SB 1474          by Nichols   House Sponsor: McReynolds

Relating to compensation for certain emergency services personnel.

Authorizes certain emergency services personnel who are state employees to use accrued compensatory time within 18 months.

Effective Date: September 1, 2009

SB 2298          by Watson   House Sponsor: Farabee

Relating to compensation of certain state employees.

Amends current law relating to compensation of certain state employees. Authorizes state agencies to pay state employees who are exempt from earning overtime for compensatory time accrued by the employee during a declared disaster or emergency, or if the employee is employed by a state mental health or mental retardation facility and the agency determines that taking regular time off would be disruptive to normal business. Removes the six-month waiting period required between one-time merit payments for state and higher education employees who are paid a one-time merit for performance during a disaster. Authorizes state employees to earn compensatory time for hours worked at home if they obtain approval in advance.

Effective Date: June 19, 2009
Agency Administration

General

HB 432 by Lucio III Senate Sponsor: Estes

Relating to the low-emissions vehicles purchasing requirement for certain state agencies.

Requires state agencies that purchase passenger vehicles or other ground transportation vehicles for general use to ensure that not less than 25 percent of new vehicles purchased during a biennium meet or exceed EPA’s Tier II, Bin 3 emission standards, including having a greenhouse gas score of eight under EPA regulations as they existed September 1, 2007. Currently, the statute requires that not less than 10 percent of new vehicles purchased during a biennium meet or exceed the EPA requirement.

Effective Date: September 1, 2009

HB 464 by Paxton Senate Sponsor: Nelson

Relating to the preparation by the Legislative Budget Board of a dynamic fiscal impact statement for certain bills and joint resolutions affecting taxes and fees.

Requires the Legislative Budget Board to prepare a dynamic fiscal impact statement for legislation that changes the rate or amount of a tax or fee; and for which a fiscal note is prepared indicating a positive or negative impact on revenue of at least $75 million annually.

Effective Date: September 1, 2009

HB 987 by Creighton Senate Sponsor: West

Relating to competitive procurement and change order requirements for local governments.

Under current law, cities have a limit of $50,000 for procurement through the sealed bid method. This bill brings other governmental entities up to the same $50,000 level to standardize requirements and to account for the devaluation of local dollars. The bill also allows governmental entities to designate one person to be in charge of change orders for work within an original contract that costs less than $50,000.

Effective Date: June 19, 2009

HB 1043 by Orr Senate Sponsor: Nelson

Relating to the creation of an employment preference at state agencies for certain former foster children.

Effective Date: September 1, 2009
HB 3544 by Lucio III Senate Sponsor: Fraser

Relating to electronic notices by the Texas Commission on Environmental Quality, electronically stored information provided by a governmental body, and confidentiality of e-mail addresses provided to a governmental body.

Authorizes the TCEQ to utilize electronic means of transmission for information issued or sent by the agency. Also provides an additional exemption from non-disclosure of email addresses under the Public Information Act for email addresses submitted for the purpose of providing public comment, or receiving notices, orders, or decisions from a governmental body. The bill would also delete a reference to paper copies of public information provided by a governmental body to encourage requests for electronic copies.

Also includes provisions changing Proposition 2 as follows: 1) requires TCEQ to uniformly apply the standards and methods for making determinations to all applications, including those applications filed under Subsection (k), i.e., Tier IV applications, in current statute and 2) requires creation of a permanent advisory committee. (See HB 3206.)

Effective Date: September 1, 2009

HB 4343 by Smithee Senate Sponsor: Fraser

Relating to access to certain criminal history record information maintained by the Department of Public Safety.

Amends the Government Code to add the Texas Department of Insurance to the list of noncriminal justice agencies to which the Department of Public Safety may disclose certain criminal history record information.

Effective Date: June 19, 2009

SB 671 by Shapleigh House Sponsor: Gallego

Relating to information requested by a member, committee, or agency of the legislature under the public information law.

Amends the Public Information Act (PIA) provision that allows legislators to obtain for legislative purposes confidential information that would otherwise be protected under the PIA. Allows a member, committee, or agency of the legislature that is required to sign a confidentiality agreement to have a determination made as to whether the material covered by the agreement is actually confidential by law. The member, committee, or agency may obtain such a determination by either filing a declaratory judgment action in district court or seeking a decision from the attorney general’s office. If any of the material covered by the confidentiality agreement is determined not to be confidential by law, then the corresponding portion of the agreement is void.

Effective Date: September 1, 2009

SB 745 by Duncan House Sponsor: Solomons

Relating to state travel policies and procedures for the reimbursement or payment of travel expenses.

Revises state travel policies to allow for the electronic storage and submission of travel voucher documentation by state agencies. Also removes the current requirement that the employee must re-approve any fiscal or accounting-related changes made to the travel voucher after its original submission.

Effective Date: September 1, 2009
SB 1068 by Wentworth   House Sponsor: Gallego

Relating to allowing a governmental body to redact certain personal information under the public information law without the necessity of requesting a decision from the attorney general.

Authorizes certain personal information to be redacted from public information without the necessity of requesting a decision from the attorney general.

Effective Date: June 4, 2009

SB 1629 by Wentworth   House Sponsor: Rose

Relating to the persons exempted from the required prepayment of the personnel costs incurred by a governmental body in responding to requests from a requestor under the public information law that require large amounts of time.

Provides that certain newspapers and magazines are exempt from the cost recovery provisions.

Effective Date: September 1, 2009
Agency Administration
Information Resources

HB 1830  by Corte  Senate Sponsor:  Ellis

Relating to information technology security practices of state agencies.

Allows the Department of Information Resources (DIR) to access certain criminal history record information maintained by the Department of Public Safety and the Federal Bureau of Investigation. Requires state agencies to provide, upon completion, an electronic copy of its vulnerability report to DIR, the state auditor, the agency’s executive director, and any other information technology security oversight group specifically authorized by the legislature to receive the report.

Effective Date:  September 1, 2009

HB 2004  by McCall  Senate Sponsor:  Ellis

Relating to a breach of computer security involving sensitive personal information maintained by a state agency or local government.

Amends current law relating to a breach of computer security involving sensitive personal information and to the protection of sensitive personal information and certain protected health information.

Effective Date:  September 1, 2009
Agency Programs
Air

HB 469  by Phil King  Senate Sponsor: Seliger

Relating to the establishment of incentives by this state for the implementation of certain projects to capture and sequester in geological formations carbon dioxide that would otherwise be emitted into the atmosphere.

Provides tax incentives to organizations that participate in research and development activities related to a “clean energy project”. Defines a “clean energy project” and modifies the definition of an “advanced clean energy project”. The TCEQ is responsible for approving the application of a project to be certified as an advanced clean energy project.

Provides for a franchise tax credit, that would equal up to the lesser of 10 percent of the total capital cost of the project or $100 million, for an entity implementing a clean energy project, with a maximum of three projects receiving the credit. The bill would create property tax abatement provisions for advanced clean energy projects located in county reinvestment zones.

Requires the Railroad Commission (RRC) to issue a certificate of compliance verifying a project met the requirements for a clean energy project.

Requires the Bureau of Economic Geology of the University of Texas at Austin (BEG) to monitor, measure, and verify the status of the sequestered carbon dioxide generated by clean energy projects. The BEG is also responsible for designing initial protocols and standards for the process, reviewing the conduct of the process, evaluating the results of the process, and determining whether to transmit verification of the process to the Comptroller.

Amends the Tax Code to reduce the oil production tax rate from 4.6 percent to 1.15 percent for certain oil producers. To qualify, the oil produced must be recovered through an Enhanced Oil Recovery Project (EOR) that uses carbon dioxide generated by a clean energy project. Also, the producer must receive certification from either the RRC or the TCEQ, depending on where the carbon dioxide is sequestered.

HB 715  by Phil King  Senate Sponsor: Estes

Relating to motor vehicle inspection stations that perform emissions inspections using only the onboard diagnostic system of inspected vehicles.

Increases the monthly maximum number of emissions tests that is currently in place for the Dallas-Fort Worth (DFW) and Houston-Galveston-Brazoria (HGB) areas for vehicle emissions testing stations that petition the Texas Department of Public Safety (DPS) to only provide onboard diagnostic (OBD) testing at its inspection stations. Currently, the OBD-only inspection stations are limited to 100 emissions test per month, 1,200 per year. Under the new law, the number of inspections may not be restricted to fewer than 150 inspections per month.

Effective Date: October 31, 2010
HB 1796  by Chisum  Senate Sponsor: Watson

Relating to the offshore geologic storage of carbon dioxide.

Requires the General Land Office to contract with the University of Texas Bureau of Economic Geology (BEG) at the University of Texas at Austin to conduct a study of state-owned offshore submerged land to identify potential locations for a carbon dioxide repository. Requires the TCEQ to develop standards and rules for the offshore sequestration of carbon dioxide. Any standards adopted by the TCEQ would need to comply with requirements issued by the U.S. Environmental Protection Agency. The School Land Board (SLB) would make the final determination of suitable locations for carbon dioxide storage. The SLB also would issue a request for proposals for the construction of infrastructure for transportation to and storage in the offshore repository. The bill also would give the SLB authority to establish a storage fee by rule.

Requires the TCEQ to adopt standards for monitoring, measuring and verifying the permanent storage status of the repository, and the BEG would perform those functions and serve as a scientific advisor. The BEG would perform the measurement, monitoring, and verification of the permanent status of carbon dioxide in the carbon dioxide repository. Requires the BEG to provide the SLB data relating to the measurement, monitoring, and verification of the permanent storage status of the carbon dioxide in the carbon dioxide repository, as determined by the SLB. The SLB would acquire title to the carbon dioxide stored in the repository on behalf of the state and administer and control the stored carbon dioxide in the name of the state. Prohibits both the SLB and the TCEQ from establishing or regulating the rates charged for the transportation of carbon dioxide to the carbon dioxide repository. The SLB is required to issue an annual report on the repository.

Requires the TCEQ to establish and administer a New Technology Implementation Grant (NTIG) to implement new technologies to reduce emissions from facilities and other stationary sources. This program will be part of TERP. Provides cost-sharing requirements that require applicants to provide at least 50 percent of the costs of implementing a project under this chapter. TCEQ is required to coordinate an interagency application review process with the Comptroller, Public Utility Commission, and the Railroad Commission. The TCEQ would be required to incorporate the review results into the grant award decision process and include in an annual report a justification for awards made to projects that were negatively reviewed by the other agencies.

Projects eligible in the NTIG program could include: advanced clean energy project; new technology projects that reduce emissions of regulated pollutants from point sources that involve capital expenditures that exceed $500 million; and electricity storage projects related to renewable energy.

Provides that funds collected under Section 185 of the Federal Clean Air Act be deposited to the General Revenue-Dedicated Clean Air Account No. 151.

Extends the TERP Program and all associated fees until August 31, 2019. Also adds stationary engines to the list of items the TCEQ can fund through the TERP grant program. Exempts mobile generators used for natural gas recovery purposes from the requirement that at least 75 percent of the annual use of a TERP-funded project occur in nonattainment areas and affected counties for at least five years.

The legislation also amended the allocation of TERP funds. Based on this legislation, the funds will be distributed in the following manner:

- Emissions Reduction Incentive Grants (ERIG) program - 87.5 percent
- New Technology Research & Development (NTRD) - 9 percent
- Administration: Texas Commission on Environmental Quality – 2 percent
- Energy Systems Lab at Texas Engineering Experiment Stations (TEES) - 1.5 percent

The following programs are included in the allocation under the 87.5 percent: ERIG; Clean School Bus Program; and New Technology Implementation Grant Program. Also as the result of passage of SB 1759, five percent of the 87.5 percent is allocated to the Clean Fleet Program.
The following programs are included in the allocation under the 9 percent: NTRD grants; air quality research; TEES; and health effects study.

Requires the TCEQ, the Railroad Commission, and the PUC to participate in the development of a federal greenhouse gas reporting requirements. Directs the TCEQ to establish an inventory of voluntary actions taken by businesses in the state and state agencies since September 1, 2001 to reduce carbon dioxide emissions and to work with the U.S. Environmental Protection Agency to give credit for early action under any federal rules that may be adopted for federal greenhouse gas regulation.

**SB 1387**
by Seliger
**House Sponsor:** Crownover

**Relating to the injection and geologic storage of anthropogenic carbon dioxide.**

Provides a state-level regulatory framework for the storage and sequestration of carbon dioxide into geologic formations that may contain oil or gas. Gives the Railroad Commission (RRC) jurisdiction over the injection of carbon dioxide into wells that are or may be productive of oil or gas, as well as jurisdiction over storage in a salt brine formation that exists above or below an oil or gas formation. Also requires that before the RCC may issue a permit under this section that the TCEQ must certify that underground fresh water supplies will not be injured by the permitted activity. Calls for the TCEQ, RRC, and the University of Texas Bureau of Economic Geology (BEG) to conduct a study and report back to the legislature on the appropriate agency to regulate the long term storage of CO2 into non oil or gas producing geologic formations. Calls on the Texas General Land Office (GLO) in conjunction with the TCEQ, the RRC, and the BEG to develop recommendations for managing geologic storage of CO2 on state-owned lands, including an assessment of storage capacity and new legal and regulatory frameworks that could be necessary based on the GLO recommendations.
