Re: Comments on Advance Notice of Proposed Rulemaking on State Guidelines for Greenhouse Gas Emissions from Existing Electric Utility Generating Units

Dear Sir or Madam:

The Public Utility Commission of Texas (PUCT), Railroad Commission of Texas (RRC), and Texas Commission on Environmental Quality (TCEQ) appreciate the opportunity to comment on the United States Environmental Protection Agency's Advance Notice of Proposed Rulemaking on State Guidelines for Greenhouse Gas Emissions from Existing Electric Utility Generating Units, which if proposed would be a replacement to the Clean Power Plan. While the PUCT, RRC, and TCEQ support the proposed repeal of the Clean Power Plan, we do not support rulemaking to replace the Clean Power Plan. Detailed comments on the advance notice of proposed rulemaking are enclosed.

If you have questions concerning our comments on the advance notice of proposed rulemaking, please contact Mr. Steve Hagle, P.E., with the TCEQ at (512) 239-1295 or by email at [steve.hagle@tceq.texas.gov](mailto:steve.hagle@tceq.texas.gov).
