Is your unit an exempt wastewater treatment unit?

Does your unit receive, treat, or store an influent wastewater that is a hazardous waste or that generates and accumulates a wastewater treatment sludge that is a hazardous waste?

Yes

No

This unit is not an exempt wastewater treatment unit.

Is the unit a tank or tank system? (Sumps that meet the definition of a tank qualify, presses, sludge digesters, clarifiers, filters, thickeners, dryers, and other sludge processing tanks in which hazardous wastewater treatment sludge is also generated also qualify.)

Yes

No

Is the unit subject to regulation under either Section 402 (NPDES) or 307(b) (POTW) of the Clean Water Act (CWA)?

1. It is not necessary that the permits actually be issued or that pretreatment standards actually be in force.
2. Facility that produces no effluent as a direct result of the CWA is eligible.

Yes

No

This unit is an exempt wastewater treatment unit pursuant to 40 Code of Federal Regulations (CFR) 264.1(g)(6), 40 CFR 265.1(c)(10), 40 CFR 270.1(c)(2)(v), 30 Texas Administrative Code (TAC) 335.2(f), and 30 TAC 335.41(d)(5).

The unit is exempt from:
* Subpart J and Subparts AA-BB for tanks
* General facility standards
* Obtaining a RCRA permit
* Generator accumulation standards of 262.34 (labeling, dating)
