MISCELLANEOUS MATTER

Item 26

[Docket No. 2017-1102-MIS.](#)

Consideration of the adoption of revisions to New Technology Implementation Grant Program: Guidelines for Grants (RG-484). The adoption of the revisions to the guidelines would add new project categories to the New Technology Implementation Grant (NTIG) Program established under Texas Health and Safety Code (THSC), Chapter 391. The new project categories were added to THSC, Chapter 391, by Senate Bill 1731, 85th Texas Legislature, 2017, Regular Session. The purpose of the NTIG Program is to assist the implementation of new technologies to reduce emissions from facilities and other stationary sources in this state. The additional project categories include new technology projects that reduce emissions from upstream and midstream oil and gas production, completions, gathering, storage, processing, and transmission activities through: the replacement or repower of stationary compressors or retrofit of a stationary compressor or engine/compressor; the installation of systems to reduce or eliminate

the loss of gas, flaring of gas, or burning of gas using other combustion control devices; or the installation of systems that reduce flaring emissions and other site emissions by capturing waste heat to generate electricity solely for on-site service. (Steve Dayton, Dylan Dobecki) (Non-Rule Project No. 2017-033-OTH-NR)

RULE MATTERS

Item 27

Docket No. 2017-0866-RUL.

Consideration for publication of, and hearing on, proposed repeal of Sections 114.610 - 114.612 and 114.616; and proposed new Sections 114.610 - 114.613 of 30 TAC Chapter 114, Control of Air Pollution from Motor Vehicles. The proposed rulemaking would implement Senate Bill (SB) 1731 from the 85th Texas Legislature, 2017, Regular Session, to implement a new Light-Duty Motor Vehicle Purchase or Lease Incentive Program (program) established under Texas Health and Safety Code, Chapter 386, Subchapter D. The proposed rulemaking would repeal the criteria and requirements pertaining to the previous program that ended in 2015, and would replace those sections with the criteria and requirements for the new program established under SB 1731. The new program would provide an incentive of up to \$5,000 for the purchase or lease of an eligible new light-duty motor vehicle powered by compressed natural gas or liquefied petroleum gas. An incentive of up to \$2,500 would be available for the purchase or lease of an eligible new light-duty motor vehicle powered by an electric motor that draws electricity from a hydrogen fuel cell or from a battery. The proposed new sections would include the eligibility criteria for applicants and the new light-duty motor vehicles that may qualify for the incentive. The proposed new sections would also include requirements and procedures for a manufacturer of an eligible new light-duty motor vehicle, an intermediate or final state manufacturer, or a manufacturer of compressed natural gas or liquefied petroleum gas systems to submit information on the new light-duty motor vehicle models or natural gas or liquefied petroleum gas systems and the vehicle models on which the systems are approved for installation that the manufacturer intends to sell in this state during the model year. Under the proposed rulemaking, the manufacturer reports would need to be submitted to the executive director, or the executive director's designee, upon request initially and then no later than July 1 of each year preceding the new vehicle model year. Item 28

[Docket No. 2017-0867-RUL.](#)

Consideration for publication of, and hearing on, proposed amended Sections 114.620, 114.622, 114.623, 114.644, 114.650 - 114.653, and 114.680 - 114.682 of 30 TAC Chapter 114, Control of Air Pollution from Motor Vehicles, Subchapter K; and proposed repeal of Sections 114.648, 114.658, 114.660 - 114.662, and 114.670 - 114.672. If adopted, the amendments to Sections 114.620, 114.622, 114.623, 114.650 - 114.653, and 114.680 - 114.682 would be submitted to the United States Environmental Protection Agency (EPA) as a revision to the state implementation plan. The proposed rulemaking would implement portions of Senate Bill (SB) 1731 enacted by the 85th Legislature, 2017, Regular Session, which amended statutory provisions pertaining to programs that are part of the Texas Emissions Reduction Plan (TERP). The proposed rulemaking would amend existing rules implementing the Diesel Emissions Reduction Incentive Program established under Texas Health and Safety Code (THSC), Chapter 386, Subchapter C; the Texas Clean School Bus Program (TCSBP) established under THSC, Chapter 390; the Texas Clean Fleet Program (TCFP) established under THSC, Chapter 392; and the Seaport and Rail Yard Areas Emissions Reduction Program established under THSC, Chapter 386, Subchapter D - 1. The proposed changes include updates and revisions to program criteria and processes. The proposed rulemaking would repeal the expiration dates of the rules for the TCSBP and the TCFP. SB 1731 removed specific statutory expiration dates for the TERP programs and extended the programs until the commission publishes notification in the *Texas Register* of actions by the EPA designating areas in Texas as attainment or unclassifiable/attainment for National Ambient Air Quality Standards for ozone, or EPA has approved a redesignation substitute making a finding of nonattainment for an area, and all judicial reviews of the EPA actions and rules have been completed and upheld the findings or the limitations period to seek judicial review has expired. The proposed rulemaking would also repeal rules for the Alternative Fueling Facilities Program established under THSC, Chapter 393; and the Texas Natural Gas Vehicle Grants Program established under THSC, Chapter 394. The statutory rulemaking requirements for these two programs were removed by SB 1731. (Steve Dayton, Sierra Redding) (Rule Project No. 2017-031-114-AI)
