The adoption would implement House Bill 2662, 85th Texas Legislature, 2017, Regular Session, to repeal the 5% gross receipts fee on all compact and federal waste disposal for the biennium beginning September 1, 2017. The proposed rule was published in the November 17, 2017, issue of the *Texas Register* (42 TexReg 6480). (Hans Weger, Amie Robinson) (Rule Project No. 2017-032-336-WS)

Item 33 [**Docket No. 2017-0866-RUL.**](#)

Consideration of the adoption of the repeal of Sections 114.610 - 114.612 and 114.616; and new Sections 114.610 - 114.613 of 30 TAC Chapter 114, Control of Air Pollution from Motor Vehicles. The adoption would implement Senate Bill (SB) 1731 from the 85th Texas Legislature, 2017, Regular Session, to implement a new Light-Duty Motor Vehicle

Purchase or Lease Incentive Program (program) established under Texas Health and Safety Code, Chapter 386, Subchapter D. The proposed rulemaking would repeal the criteria and requirements pertaining to the previous program that ended in 2015, and would replace those sections with the criteria and requirements for the new program established under SB 1731. The new program would provide an incentive of up to \$5,000 for the purchase or lease of an eligible new light-duty motor vehicle powered by compressed natural gas or liquefied petroleum gas. An incentive of up to \$2,500 would be available for the purchase or lease of an eligible new light-duty motor vehicle powered by an electric motor that draws electricity from a hydrogen fuel cell or from a battery. The adopted new sections would include the eligibility criteria for applicants and the new light-duty motor vehicles that may qualify for the incentive. The adopted new sections would also include requirements and procedures for a manufacturer of an eligible new light-duty motor vehicle, an intermediate or final state manufacturer, or a manufacturer of compressed natural gas or liquefied petroleum gas systems to submit reports to the executive director. Manufacturers are required to submit information on the new light-duty motor vehicle models or compressed natural gas or liquefied petroleum gas systems and the vehicle models on which the systems are approved for installation that the manufacturer intends to sell in this state during the model year. Under the adopted rulemaking, the manufacturer reports would need to be submitted to the executive director, or the executive director's designee, upon request initially and then no later than July 1st of each year preceding the new vehicle model year. The proposed rules were published in the December 1, 2017, issue of the *Texas Register* (42 TexReg 6689). (Steve Dayton, Sierra Redding) (Rule Project No. 2017-030-114-AI)

Item 34

[Docket No. 2017-0867-RUL.](#)

Consideration of the adoption of amended Sections 114.620, 114.622, 114.623, 114.644, 114.650 - 114.653, and 114.680 - 114.682 of 30 TAC Chapter 114, Control of Air Pollution from Motor Vehicles, Subchapter K; and the repeal of Sections 114.648, 114.658, 114.660 - 114.662, and 114.670 - 114.672. If adopted, the amendments to Sections 114.620, 114.622, 114.623, 114.650 - 114.653, and 114.680 - 114.682 would be submitted to the United States Environmental Protection Agency (EPA) as a revision to the state implementation plan. The adopted rulemaking would implement portions of Senate Bill (SB) 1731 enacted by the 85th Texas Legislature, 2017, Regular Session, which amended statutory provisions pertaining to programs that are part of the Texas Emissions Reduction Plan (TERP). The adopted rulemaking would amend existing rules implementing the Diesel Emissions Reduction Incentive Program established under Texas Health and Safety Code (THSC), Chapter 386,

Subchapter C; the Texas Clean School Bus Program (TCSBP) established under THSC, Chapter 390; the Texas Clean Fleet Program (TCFP) established under THSC, Chapter 392; and the Seaport and Rail Yard Areas Emissions Reduction Program established under THSC, Chapter 386, Subchapter D-1. The adopted changes include updates and revisions to program criteria and processes. The adopted rulemaking would repeal the expiration dates of the rules for the TCSBP and the TCFP. SB 1731 removed specific statutory expiration dates for the TERP programs and extended the programs until the commission publishes notification in the *Texas Register* of actions by the EPA designating areas in Texas as attainment or unclassifiable/attainment for National Ambient Air Quality Standards for ozone, or EPA has approved a redesignation substitute making a finding of nonattainment for an area, and all judicial reviews of the EPA actions and rules have been completed and upheld the findings or the limitations period to seek judicial review has expired. The adopted rulemaking would also repeal rules for the Alternative Fueling Facilities Program established under THSC, Chapter 393; and the Texas Natural Gas Vehicle Grants Program established under THSC, Chapter 394. The statutory rulemaking requirements for these two programs were removed by SB 1731. The proposed rules were published in the December 1, 2017, issue of the *Texas Register* (42 TexReg 6696).
