Update**
2-23-2021
7:15 AM

Consideration of an application by Steel Dynamics Southwest, LLC for Authorization to Construct a new wastewater treatment facility, pursuant to Texas Water Code Sections 26.019 and 26.027. Steel Dynamics Southwest, LLC has applied for new Texas Pollutant Discharge Elimination System Permit (TPDES) No. WQ0005283000 to authorize the discharge of treated wastewater at a volume not to exceed a daily average flow of 1,560,000 gallons per day. The facility will be located 8534 State Highway 89, Sinton, in San Patricio County, Texas 78387. The discharge route will be from the plant site via onsite ditches to Chiltipin Creek; thence to the confluence of the Aransas River Tidal and Copano Bay/Port Bay/ Mission Bay. Steel Dynamics Southwest, LLC requests the Authorization to Construct in order to promote a more efficient construction schedule for the facility and allow for more cohesive construction of electrical, plumbing and support functions that will be in the same general area of the proposed wastewater treatment plant. An order granting this application for Authorization to Construct would not constitute permit issuance or a guarantee of future permit issuance, and would not authorize operation of, or discharge of effluent from, the proposed treatment facility until Steel Dynamics Southwest, LLC obtains a TPDES permit from the Commission.
