PERMIT NO. WQ0015266002

APPLICATION AND PRELIMINARY DECISION. Crystal Clear Special Utility District and MCLB Land, LLC, 2370 Farm-to-Market 1979, San Marcos, Texas 78666, have applied to the Texas Commission on Environmental Quality (TCEQ) for new Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0015266002, to authorize the discharge of treated domestic wastewater at a daily average flow not to exceed 100,000 gallons per day. TCEQ received this application on March 4, 2019.

The facility will be located approximately 1,000 feet west of Francis Harris Lane and 800 feet south of South Old Bastrop Highway, in Hays County, Texas 78666. The treated effluent will be discharged to an unnamed tributary of York Creek, thence to a Soil Conservation Service Site 5 Reservoir, thence to an unnamed tributary of York Creek, thence to York Creek, thence to the Lower San Marcos River in Segment No. 1808 of the Guadalupe River Basin. The unclassified receiving water uses are limited aquatic life use for the unnamed tributary of York Creek and York Creek and high aquatic life use for the Soil Conservation Services Site 5 Reservoir. The designated uses for Segment No. 1808 are primary contact recreation, public water supply, and high aquatic life use. In accordance with 30 Texas Administrative Code §307.5 and the TCEQ implementation procedures (June 2010) for the Texas Surface Water Quality Standards, an antidegradation review of the receiving waters was performed. A Tier 1 antidegradation review has preliminarily determined that existing water quality uses will not be impaired by this permit action. Numerical and narrative criteria to protect existing uses will be maintained. A Tier 2 review has preliminarily determined that no significant degradation of water quality is expected in the Soil Conservation Service Site 5 Reservoir, which has been identified as having high aquatic life use. Existing uses will be maintained and protected. The preliminary determination can be reexamined and may be modified if new information is received. This link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice. For the exact location, refer to the application.

The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements. The permit application, Executive Director's preliminary decision, and draft permit are available for viewing and copying at the San Marcos Public Library, 625 East Hopkins Street, San Marcos Texas.

During the Informal Discussion Period, the public will be encouraged to ask questions of the applicant and TCEQ staff concerning the permit application. The comments and questions submitted orally during the Informal Discussion Period will not be considered before a decision is reached on the permit application and no formal response will be made. During the Formal Comment Period on the permit application, members of the public may state their formal comments orally into the official record. A written response to all timely, relevant and material, or significant comments will be prepared by the Executive Director. All formal comments will be considered before a decision is reached on the permit application.
