Permit No. WQ0005253000**

**APPLICATION.**

Port of Corpus Christi Authority of Nueces County, P.O. Box 1541, Corpus Christi, Texas 78403, which proposes to operate the Harbor Island Property - Former FINA Tank Farm, a seawater desalination facility, has applied to the Texas Commission on Environmental Quality (TCEQ) for a new permit, Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0005253000, to authorize the discharge of water treatment wastes at a daily average flow not to exceed 95,600,000 gallons per day via Outfall 001. The TCEQ received this application on March 7, 2018.

The facility will be located adjacent to State Highway 361 just northeast of the Ferry Landing, in Nueces County, Texas 78336. As a public courtesy, we have provided the following Web page to an online map of the site or the facility's general location. The online map is not part of the application or the notice:

The effluent will be discharged via pipe directly to Corpus Christi Bay in Segment No. 2481 of the Bays and Estuaries. The designated uses for Segment No. 2481 are primary contact recreation, exceptional aquatic life use, and oyster waters.

In accordance with Title 30 Texas Administrative Code (TAC) Section 307.5 and TCEQ's *Procedures to Implement the Texas Surface Water Quality Standards* (June 2010), an antidegradation review of the receiving waters was performed. A Tier 1 antidegradation review has preliminarily determined that existing water quality uses will not be impaired by this permit action. Numerical and narrative criteria to protect existing uses will be maintained. A Tier 2 review has preliminarily determined that no significant degradation of water quality is expected in Corpus Christi Bay, which has been identified as having exceptional aquatic life use. Existing uses will be maintained and protected. The preliminary determination can be reexamined and may be modified if new information is received.

The TCEQ Executive Director reviewed this action for consistency with the Texas Coastal Management Program (CMP) goals and policies in accordance with the regulations of the General Land Office and has determined that the action is consistent with the applicable CMP goals and policies.

The TCEQ Executive Director has prepared a draft permit which, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements. The permit application, Executive Director's preliminary decision, and draft permit are available for viewing and copying at the following locations: Ed & Hazel Richmond Public Library, located at 110 N Lamont Street, Aransas Pass, Texas 78336; City Hall of Port Aransas, located at 710 W Avenue A, Port Aransas, Texas 78373; La Retama Central Library, located at 805 Comanche Street, Corpus Christi, Texas 78401; and Sinton Public Library, located at 100 N Pirate Blvd, Sinton, Texas.
