

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

**NOTICE OF HEARING
MARBAC, L.L.C.
SOAH Docket No. 582-21-2735
TCEQ Docket No. 2021-0438-MWD
Permit No. WQ0015880001**

APPLICATION.

Marbac, L.L.C., 9803 Highway 242, Suite 200-134, Conroe, Texas 77385, has applied to the Texas Commission on Environmental Quality (TCEQ) for new Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0015880001, to authorize the discharge of treated domestic wastewater at a daily average flow not to exceed 99,000 gallons per day. TCEQ received this application on April 6, 2020.

The facility will be located at 17431 Farm-to-Market Road 1314, in Montgomery County, Texas 77302. The treated effluent will be discharged to a man-made channel; thence to an unnamed tributary; thence to West Fork San Jacinto River in Segment No. 1004 of the San Jacinto River Basin. The unclassified receiving water use is minimal aquatic life use for the man-made channel. The designated uses for Segment No. 1004 are primary contact recreation, public water supply, and high aquatic life use. In accordance with 30 Texas Administrative Code § 307.5 and the TCEQ implementation procedures (June 2010) for the Texas Surface Water Quality Standards, an antidegradation review of the receiving waters was performed. A Tier 1 antidegradation review has preliminarily determined that existing water quality uses will not be impaired by this permit action. Numerical and narrative criteria to protect existing uses will be maintained. This review has preliminarily determined that no water bodies with exceptional, high, or intermediate aquatic life uses are present within the stream reach assessed; therefore, no Tier 2 degradation determination is required. No significant degradation of water quality is expected in water bodies with exceptional, high, or intermediate aquatic life uses downstream, and existing uses will be maintained and protected. The preliminary determination can be reexamined and may be modified if new information is received. As a public courtesy, we have provided the following Web page to an online map of the site or the facility's general location. The online map is not part of the application or the notice:

The TCEQ Executive Director has prepared a draft permit which, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements. The permit application, Executive Director's preliminary decision, and draft permit are available for viewing and copying at Montgomery County Clerk, 210 West Davis Street, Suite 100, Conroe, Texas.

The hearing will address the disputed issues of fact identified in the TCEQ order concerning this application issued on May 26, 2021. The hearing will be conducted in accordance with Chapter 2001, Texas Government Code; Chapter 26, Texas Water Code; and the procedural rules of the TCEQ and SOAH, including 30 TAC Chapter 80 and 1 TAC Chapter 155.
