**AMENDED NOTICE OF HEARING**  
**KALI KATE SERVICES INC.**  
**SOAH Docket No. 582-21-2525**  
**TCEQ Docket No. 2021-0057-MWD**  
**Permit No. WQ0015843001**

**APPLICATION.**

Kali Kate Services Inc., 4550 Farm-to-Market Road 967, Buda, Texas 78610, has applied to the Texas Commission on Environmental Quality (TCEQ) for new Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0015843001, to authorize the discharge of treated domestic wastewater at a daily average flow not to exceed 34,300 gallons per day. TCEQ received this application on December 10, 2019.

The facility will be located approximately 0.3 mile northeast of the intersection of Farm-to-Market Road 1102 and Havenwood Boulevard, in Comal County, Texas 78130. The treated effluent will be discharged via pipe to an unnamed tributary of Water Hole Creek, thence to Water Hole Creek, thence to Soil Conservation Service (SCS) Site 3 Reservoir, thence to Water Hole Creek, thence to York Creek, thence to the Lower San Marcos River in Segment No. 1808 of the Guadalupe River Basin. The unclassified receiving water uses are limited aquatic life use for the unnamed tributary of Water Hole Creek and Water Hole Creek, and high aquatic life use for SCS Site 3 Reservoir. The designated uses for Segment No. 1808 are primary contact recreation, public water supply, and high aquatic life use. In accordance with 30 Texas Administrative Code § 307.5 and the TCEQ implementation procedures (June 2010) for the Texas Surface Water Quality Standards, an antidegradation review of the receiving waters was performed. A Tier 1 antidegradation review has preliminarily determined that existing water quality uses will not be impaired by this permit action. Numerical and narrative criteria to protect existing uses will be maintained. A Tier 2 review has preliminarily determined that no significant degradation of water quality is expected in SCS Site 3 Reservoir, which has been identified as having high aquatic life use. Existing uses will be maintained and protected. The preliminary determination can be reexamined and may be modified if new information is received. As a public courtesy, we have provided the following Web page to an online map of the site or the facility's general location. The online map is not part of the application or the notice:

The TCEQ Executive Director has prepared a draft permit which, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements. The permit application, Executive Director's preliminary decision, and draft permit are available for viewing and copying at New Braunfels Public Library, 700 East Common Street, New Braunfels, Texas.

The hearing will be conducted in accordance with Chapter 2001, Texas Government Code; Chapter 26, Texas Water Code; and the procedural rules of the TCEQ and SOAH, including 30 TAC Chapter 80 and 1 TAC Chapter 155.
