CONTENTS

Chapter 1. Introduction

Purpose.....	1-1
Biological Assessments.....	1-1
How SWQM Procedures Are Used	1-2
Legal Authority	1-2
Contact Information.....	1-2
Getting Resources	1-3

Chapter 2. Biological Monitoring Requirements

Index Period.....	2-1
Scheduling Biological Monitor Events	2-2
General Sampling Guidelines	2-2
Representativeness of Sites	2-2
Site Reconnaissance	2-3
Sampling Conditions	2-3
Low-Flow Monitoring.....	2-3
Other Monitoring Requirements.....	2-4
Documentation and Field Notes.....	2-4
Creating New Monitoring Stations	2-5
Additional Latitude and Longitude Coordinates.....	2-5
Non-Biological Parameters	2-5
Monitoring Categories for Wadable Freshwater Streams	2-5
ALM.....	2-5
Aquatic-Life Assessments	2-6
Receiving-Water Assessments.....	2-7
Use-Attainability Analyses	2-8
Monitoring and Assessment of Large Rivers	2-9
Monitoring and Assessment of Lakes and Reservoirs.....	2-10
Categories of Saltwater Biological Monitoring.....	2-11
Tidal Streams and Estuaries.....	2-11
Sampling Index Period.....	2-12

Chapter 3. Freshwater Fish

Objective.....	3-1
Scientific Collection Permit.....	3-1
Records	3-1
Field Logbook	3-2
Sample-Tracking Logbook.....	3-2
Laboratory Bench Sheets.....	3-2
Sample Collection.....	3-2
Electrofishing.....	3-3
Collection Procedures.....	3-3
Backpack Electrofisher	3-3
Boat-Mounted Electrofisher.....	3-4
Seine.....	3-5
Sample Preservation and Processing	3-6
Field Processing	3-6
Use of Digital Photos as Fish Vouchers	3-6
Rules for Capturing Voucher Images of Fishes	3-8
Field Preservation	3-8

Labeling a Field Sample	3-9
Laboratory Processing	3-10
Identification of Fish-Assemblage Samples	3-10
Sample-Tracking Log	3-10
Laboratory Sample Processing	3-10
Sorting and Identification	3-11
Voucher Specimens	3-12
Data Evaluation	3-12
Large-River Monitoring and Assessment	3-12
Reservoir Monitoring and Assessment	3-14

Chapter 4. Saltwater Nekton

Disclaimer	4-1
Objective	4-1
Scientific Collection Permit	4-1
Records	4-2
Field Logbook	4-2
Sample-Tracking Logbook	4-2
Laboratory Bench Sheets	4-3
Sample Collection	4-3
Collection Procedures	4-3
Fish Collection in Tidal Streams and Bayous	4-3
Trawl	4-4
Seine	4-4
Boat-Mounted Electrofisher	4-5
Gill Netting	4-5
Sample Preservation and Processing	4-6
Field Processing	4-6
Field Preservation	4-6
Labeling a Field Sample	4-7
Laboratory Processing	4-7
Identification of Fish-Assemblage Species	4-7
Sample-Tracking Log	4-7
Laboratory Sample Preservation	4-8
Sample Sorting and Identification	4-8
Laboratory Bench Sheets	4-9
Quality-Control Checks	4-9
Voucher Specimens	4-9
Field Notes	4-10
Data Evaluation	4-10

Chapter 5. Freshwater Benthic Macroinvertebrates

Objective	5-1
Scientific Collection Permit	5-1
Overview of Sample-Collection Methods	5-1
Riffles, Runs, and Glides in Wadable Streams and Rivers	5-1
Rapid Bioassessment Protocols	5-1
Quantitative Protocols	5-2
Lakes, Reservoirs, and Depositional Zones of Streams and Rivers (Pools)	5-2
Sediment Grabs	5-2
Equipment	5-2
Records	5-2
Field Logbook	5-2

Sample-Tracking Logbook.....	5-3
Laboratory Bench Sheets.....	5-3
Wadable Streams and Rivers	5-3
Where to Collect Samples	5-4
Riffles.....	5-4
Runs and Glides	5-5
Pools.....	5-5
Rapid Bioassessment Protocols.....	5-5
Collecting RBP Kicknet Samples	5-5
Equipment.....	5-6
Collecting a Sample	5-6
Processing a Sample in the Field	5-6
Processing a Sample in the Lab	5-7
Collecting RBP Snag Samples	5-7
When to Use the Snag Method	5-7
Selecting Snags	5-7
Collecting a Sample	5-7
Processing a Sample in the Field	5-8
Processing a Sample in the Lab	5-8
Preservation of RBP Samples.....	5-8
Preservation for Processing a Sample in the Field.....	5-8
Labeling the Sample	5-8
Preservation for Processing a Sample in the Lab.....	5-9
Labeling the Field Sample for Laboratory Processing.....	5-9
Processing RBP Kicknet or Snag Samples.....	5-9
Field Processing RBP Kicknet or RBP Snag Samples	5-10
Tracking Requirements for RBP Kicknet or RBP Snag Samples.....	5-11
Laboratory Processing RBP Kicknet or RBP Snag Samples.....	5-12
Laboratory Procedures for Identification of Specimens Collected in RBP Kicknet or RBP Snag Samples	5-12
Voucher Specimens	5-12
Voucher Storage	5-13
Data Evaluation for RBP Kicknet or RBP Snag Samples	5-13
Freshwater Mussels	5-16
Disclaimer.....	5-16
Objective.....	5-16
Scientific Collection Permit.....	5-16
Sample Collection.....	5-16
Field Preservation	5-17
Labeling a Field Sample	5-17
Identification of Mussel Samples.....	5-18

Chapter 6. Saltwater Benthic Macroinvertebrates

Disclaimer.....	6-1
Objective.....	6-1
Scientific Collection Permit.....	6-1
Equipment.....	6-1
Selecting the Sampling Site	6-2
Sampling Procedure.....	6-2
Sample Washing.....	6-2
Narcotizing Sample	6-2
Preserving in the Field.....	6-3
Safety	6-3

Labeling the Sample Container	6-3
Sample Processing	6-3
Preserving in the Lab.....	6-3
Safety	6-4
Sorting in the Lab.....	6-4
Labeling a Lab Sample.....	6-5
Identifying Specimens in the Laboratory.....	6-5
Records.....	6-5
Field Logbook.....	6-5
Sample-Tracking Logbook	6-6
Laboratory Bench Sheets	6-6
Voucher Specimens	6-6
Tidal Streams.....	6-7

Chapter 7. Benthic Algae and Aquatic Macrophytes

Disclaimer.....	7-1
Objective.....	7-1
Overview of Methods for Collecting Benthic Algal Samples	7-1
Equipment.....	7-1
Records	7-2
Field Notebook.....	7-2
Sample-Tracking Logbook.....	7-2
Laboratory Bench Sheets.....	7-2
Wadable Streams and Rivers	7-3
Visual Assessment of Algae.....	7-3
Required Equipment.....	7-3
Categories of Algae	7-3
Long Filaments	7-3
Short Filaments	7-3
Thin Diatom Mat	7-4
Medium Diatom Mat.....	7-4
Thick Diatom Mat.....	7-4
Thin Blue-Green Mat.....	7-4
Medium Blue-Green Mat.....	7-4
Thick Blue-Green Mat	7-4
Other	7-4
Procedure.....	7-5
Observations.....	7-5
Data Evaluation	7-7
Collecting Qualitative Benthic Algal Samples	7-7
Habitat Types	7-7
Hard Substrates	7-7
Woody Debris	7-7
Sand or Silt.....	7-7
Macrophytes, Root Wads, Mosses.....	7-8
Preserving Benthic Algal Samples	7-8
Safety	7-8
Labeling the Container	7-8
Field Notes	7-8
Processing and Identification of Qualitative Benthic Algal Samples in the Laboratory	7-9
Microscopic Taxonomic Analysis of Non-Diatom Samples	7-9
Microscopic Taxonomic Analysis of Diatom Samples.....	7-10
Evaluation of Benthic Algae from Qualitative Samples	7-11

Non-Diatom Benthic Algal Samples	7-11
Diatom Assemblages	7-11
Multimetric Analysis	7-12
Collecting Quantitative Benthic Algal Samples	7-13
Collecting Quantitative Samples in Streams with Bedrock or Cobble Substrate	7-14
Sample Collection.....	7-14
Collecting Quantitative Samples in Streams with Clay, Silt, or Sandy Substrates, or Non-Wadable Streams.....	7-16
Macrophytes and Snags	7-16
Artificial Substrates	7-16
Sample Preservation.....	7-16
Safety	7-17
Labeling the Sample Container.....	7-17
Field Notes.....	7-17
Processing and Identification of Quantitative Benthic Algal Samples in the Laboratory	7-18
Estimating Biomass	7-18
Taxonomic Analysis	7-18
Evaluating Benthic Algal Data for Quantitative Samples	7-19
Evaluating Periphyton Biomass	7-19
Evaluating Benthic Algal Assemblages.....	7-19
Aquatic Macrophytes	7-19
Seagrass	7-20

Chapter 8. Plankton

Disclaimer	8-1
Non-Wadable Streams, Rivers, Lakes, Reservoirs, and Bays.....	8-1
Phytoplankton-Collection Methods.....	8-1
Collecting Samples from a Harmful Algal Bloom.....	8-1
Collecting Grab Samples of Phytoplankton.....	8-2
Collecting Phytoplankton Samples with a Net	8-3
Sample Preservation.....	8-4
Safety	8-4
Labeling Sample Containers	8-5
Sample Storage	8-5
Sample Processing	8-5
Zooplankton-Collection Method	8-6
Labeling Sample Containers.....	8-7
Sample Storage	8-7
Sample Processing	8-7

Chapter 9. Physical Habitat of Aquatic Systems

Objective	9-1
Habitat-Assessment Forms	9-1
Requirements for Habitat Assessments.....	9-1
Aquatic-Life Monitoring, Aquatic-Life Assessments, and Use-Attainability Analyses	9-1
Habitat-Assessment Requirements for UAA, ALA, and ALM during the Second Event in an Index Period	9-2
Habitat-Assessment Requirements for RWAs	9-2
Determining Reach Lengths and Placing Transects.....	9-3
Transect Area	9-3
Low-Flow or Dry Conditions	9-4
Part I: Stream Physical Characteristics Worksheet.....	9-5
Primary Attributes—Instream Channel Characteristics	9-5

Habitat Type (Geomorphic Units)	9-6
Number of Riffles	9-6
Dominant Substrate Type	9-6
Percent Gravel or Larger.....	9-7
Algae and Macrophytes	9-7
Instream Cover Types	9-7
Percent Instream Cover.....	9-7
Secondary Attributes—Stream Morphology	9-7
Stream Bends	9-8
Channel Obstructions or Modifications	9-9
Water Level.....	9-9
Stream Width	9-10
Stream Depths at Points across the Transect	9-10
Tertiary Attributes—The Riparian Environment	9-10
Riparian Zone	9-10
Natural Vegetative Buffer.....	9-10
Aesthetics.....	9-11
Riparian Vegetation (Percent).....	9-11
Bank Slope (Bank Angle)	9-11
Bank Erosion.....	9-12
Tree Canopy.....	9-13
Dominant Types of Riparian Vegetation	9-14
Width of Natural Buffer Vegetation	9-14
General Observations.....	9-14
Part II—Summary of Physical Characteristics of Water Body	9-14
Streambed Slope	9-14
Drainage Area	9-15
Stream Order.....	9-15
Length of Stream Evaluated.....	9-15
Number of Lateral Transects Made	9-15
Average Stream Width.....	9-16
Average Stream Depth.....	9-16
Stream Discharge	9-16
Flow Measurement Method	9-16
Channel Flow Status	9-16
Maximum Pool Width.....	9-16
Maximum Pool Depth.....	9-16
Total Number of Stream Bends	9-17
Total Number of Riffles.....	9-17
Dominant Substrate Type	9-17
Average Percent of Substrate Gravel-Sized or Larger.....	9-17
Average Percent Instream Cover	9-17
Number of Instream Cover Types.....	9-17
Average Percent Stream Bank Erosion Potential.....	9-17
Average Stream-Bank Slope.....	9-17
Average Width of Natural Buffer Vegetation.....	9-18
Average Riparian Vegetation Percent Composition	9-18
Average Percent Tree Canopy Coverage	9-18
Overall Aesthetic Appraisal of the Stream	9-18
Part III—Habitat Quality Index.....	9-18
Assessing the Habitat of Non-Wadable Rivers and Streams	9-18
Non-Wadable Streams	9-19

Assessing the Habitats of Lakes and Reservoirs.....	9-19
Assessing the Habitat of Tidal Streams and Estuaries.....	9-19

Chapter 10. Biological Assessment Reporting Requirements and Data Management

Biological Data Reporting	10-1
Managing Biological Data	10-2
Data Handling.....	10-2
Contracting and Institutional Standards	10-2
Submitting Biological Data	10-2

Chapter 11. Quality Assurance and Quality Control

Technical Systems Audits.....	11-1
Biological-Sample Records	11-1
Training.....	11-2
Approval of Deviation from Methods.....	11-2
Tracking Samples.....	11-2
Sample-Tracking Log.....	11-3
Laboratory Bench Sheet	11-3
Voucher-Specimen Vials.....	11-4
General Quality Assurance	11-4
Vouchers.....	11-4
Voucher Storage	11-5
Confirmation Checks.....	11-5
Fish.....	11-5
Identification of Fish-Assemblage Species	11-5
Retention and Preservation of Fishes	11-5
Equipment Requirements	11-6
Taxonomic Keys.....	11-6
Required References	11-6
Supplemental References.....	11-6
Benthic Macroinvertebrates	11-7
Equipment Requirements	11-7
Taxonomic Keys.....	11-8
Required References	11-8
Supplemental References.....	11-8
Benthic Algae and Plankton.....	11-9
Equipment Requirements	11-9
Taxonomic Keys.....	11-9
Required References	11-9
Supplemental References.....	11-10
Aquatic Macrophytes	11-10
Taxonomic Keys.....	11-10
Required References	11-10

Appendix A. Equipment and Materials

Flow Measurement.....	A-1
Fish Sampling	A-1
Freshwater Benthic-Macroinvertebrate Sampling	A-2
Marine Benthic-Macroinvertebrate Sampling.....	A-2
Benthic-Algae Sampling.....	A-3
Plankton Sampling	A-3
Measurements of Physical Stream Habitat	A-4
Other Equipment.....	A-4

Appendix B. Reference Materials and Criteria for Biological Assessments

Site and Reach Selection for RWAs	B-38
---	------

Appendix C. Forms for Biological-Monitoring Packets

Elements of the Biological-Data Summary Packet.....	C-2
Checklist: Aquatic-Life Monitoring and Habitat Assessment.....	C-3
Background Information.....	C-3
Objective for Aquatic-Life-Use Assessment	C-3
Monitoring Information	C-4
Outline for Use-Attainability-Analysis Report.....	C-6
Packet for Reporting Biological-Monitoring Data.....	C-7

Appendix D. Biological Fact Sheets

Biological-Monitoring Fact Sheets	D-2
---	-----

Appendix E. Glossary

Appendix F. Surber-Sampler Protocols

Sample Collection.....	F-1
Records	F-1
Field Logbook	F-1
Sample-Tracking Logbook.....	F-1
Laboratory Bench Sheets.....	F-1
Where to Collect Samples.....	F-1
Collecting a Surber Sample	F-2
Field Processing and Preserving a Surber Sample	F-2
Labeling the Sample Container.....	F-2
Tracking Requirements for Surber Samples.....	F-3
Laboratory Processing for Surber Samples	F-3
Rinsing a Sample	F-3
Sorting a Sample.....	F-4
Labeling a Sample.....	F-4
Quantitative Snag Samples	F-4
Selecting Snags.....	F-4
Collecting a Sample.....	F-5
Laboratory Processing for Quantitative Snag Samples	F-5
Laboratory Procedures for Identification of Specimens Collected Using a Surber Sampler or Quantitative Snag Samples.....	F-5
Data Evaluation for Surber Samples	F-6
Pool, Reservoir, or Lake: Protocols for Sampling by Ekman, Ponar, Petersen, or Van Veen Dredge.....	F-8
Sample-Collection Procedures	F-8
Collecting a Sample	F-8
Rinsing the Sample	F-8
Preserving the Sample.....	F-8
Labeling the Sample Container.....	F-9
Laboratory Procedures for Identification of Specimens Collected in Pools or Reservoirs Using an Ekman, Ponar, or Van Veen Dredge	F-9
Voucher Specimens	F-10

Appendix G. Abbreviations

Appendix H. Laboratory Bench Sheets

Tables

3.1 Guidelines for photographing the appropriate view of fish specimens.....	3-9
5.1 Taxonomic levels for identification of organisms	5-12
8.1 Number and depth of zooplankton tows	8-6
10.1 Summary of data requirements	10-1
B.1 Estimated downstream distance of domestic-discharge impact on dissolved oxygen	B-1
B.2 Dissolved-oxygen criteria, mg/L [30 TAC 307.7(b)(3)(A)(I)]	B-2
B.3 Metrics for Ecoregion 24.....	B-3
B.4 Metrics for Ecoregions 25 and 26	B-5
B.5 Metrics for Ecoregions 27, 29, and 32	B-7
B.6 Metrics for Ecoregion 30.....	B-9
B.7 Metrics for Ecoregion 31.....	B-11
B.8 Metrics for Ecoregions 33 and 35	B-13
B.9 Metrics for Ecoregion 34.....	B-15
B.10 Classification of Texas freshwater fishes into trophic and tolerance groups	B-18
B.11 Benthic Index of Biotic Integrity metrics and scoring criteria for kick samples, rapid bioassessment protocol—benthic macroinvertebrates	B-25
B.12 Metrics and scoring criteria for Surber samples—benthic macroinvertebrates.....	B-26
B.13 Tolerance values and functional group classification for benthic macroinvertebrates.....	B-29
F.1 Metrics and scoring criteria for Surber samples—Benthic Index of Biotic Integrity	F-11

Figures

2.1 The index period	2-1
4.1 A bottom gill net	4-6
7.1 Example field data sheet for visual assessment of benthic algae—percent cover	7-6
7.2 How to remove algae from rock surface and how to measure rock surface area.....	7-16
8.1 Integrated water sampler.....	8-2
9.1 Transect placement for reach lengths of 150 to 300 m	9-4
9.2 Transect placement for reach lengths of 301 to 500 m	9-4
9.3 Transect area	9-5
9.4 Stream morphology.....	9-8
9.5 Stream bends	9-9
9.6 Bank-angle measurements	9-12
9.7 Convex spherical densiometer diagram	9-13
9.8 Streambed slope	9-15
9.9 Stream order.....	9-16
