TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Protecting Texas by Reducing and Preventing Pollution

November 19, 2014

Honorable Rick Perry, Governor
Honorable Susan Combs, Texas Comptroller
Ursula Parks, Director, Legislative Budget Board
John Keel, CPA, State Auditor

Ladies and Gentlemen:

We are pleased to submit the annual financial report of the Texas Commission on Environmental Quality for the year ended August 31, 2014, in compliance with Texas Government Code Annotated, §2101.011, and in accordance with the requirements established by the Texas Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) 34, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the state auditor as part of the audit of the State of Texas *Comprehensive Annual Financial Report (CAFR)*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact Ms. Liz Day, Chief Financial Officer, at 512-239-0299. Mr. Greg Yturralde may be contacted at 512-239-1951 for questions related to the Schedule of Expenditures of Federal Awards.

Sincerely,

A handwritten signature in black ink, appearing to read "R. A. Hyde".

Richard A. Hyde, P.E.
Executive Director

**NOTES TO THE
FINANCIAL
STATEMENTS**

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Entity

The Texas Commission on Environmental Quality (TCEQ) is an agency of the State of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' *Reporting Requirements for Annual Financial Reports of State Agencies and Universities*.

In accordance with Senate Bill 2, Acts of the 72nd Legislature First Called Session, Subchapter B, the state's environmental protection functions were consolidated within the TCEQ. The TCEQ operates as a regulatory agency to implement the provisions of the constitution and laws of the state with regard to promoting the judicious use and maximum conservation and protection of the quality of air, land, and both surface and ground water.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas *Comprehensive Annual Financial Report*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

Component Units

The TCEQ does not have any component units.

Fund Structure

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

Governmental Fund Types and Government-Wide Adjustment Fund Types **General Revenue Funds**

General Revenue Fund (0001) - The general revenue fund is used to account for all financial resources of the state except those required to be accounted for in another fund. This fund accounts for legislative appropriations from the State's General Revenue Fund, and miscellaneous appropriated and unappropriated receipts. The Pollution Control Equipment Review Fee is also deposited to this fund.

Natural Resource Trustee Account (9999) - This account was created by an agreement effective July 24, 1995, between the Texas General Land Office, the Texas Parks and Wildlife Department, the TCEQ and the State Treasurer (Comptroller) specifically as a joint repository for Natural Resource Damages (NRD) settlement funds. By federal statute (42 USC 9607 Comprehensive Environmental Response Compensation and Liability Act and 33 USC 2706 Oil Pollution Act) the NRD settlement funds can be used only for restoration of natural resources affected by releases of oil or hazardous substances. Pursuant to these statutes, NRD settlement funds must be placed in a revolving, interest bearing account and must be available without further appropriation. Under the agreement, all transactions must be jointly authorized by all three agencies. For these reasons, these funds are kept separate from the agency's operating budget. TCEQ is given the primary responsibility for implementing the constitution and laws of the state relating to the conservation of natural resources and the protection of the environment. For this reason, it was determined that the TCEQ would report the Natural Resource Trustee Account.

-UNAUDITED-

Low Level Radioactive Waste Fund (0088) - The passage of H.B. 1567 by the 78th Legislature provided for the licensing of a low-level radioactive waste disposal site in Texas and established procedures to accept and evaluate license applications. The bill allows a proposed disposal facility to accept compact waste (waste from Texas and Vermont or waste that has been approved for importation to this state by the Compact Commission) and to accept federal facility waste at a separate and adjacent facility under one TCEQ license.

Used Oil Recycling Account (0146) - The Used Oil Recycling Account is established in the State Treasury. The account consists of fees collected by the State Comptroller from the sale of automotive oil, who subsequently transfers the fees to the TCEQ pursuant to the provisions of Health and Safety Code, Chapter 371.

Clean Air Account (0151) - The Clean Air Account is established in the State Treasury to receive Clean Air Act fees. Fees in the account are used to safeguard the air resources of the state. Fees deposited to this fund include the Motor Vehicle Safety and Emissions Inspection Fee, the Air Inspection Fee, and the Air Permit Fee.

Water Resource Management Account (0153) - This account receives revenue from numerous water program fees, including the Consolidated Water Quality Fee, the Water Utility Regulatory Assessment Fee, the Public Health Service Fee, the Water Utility Bond Proceeds Fee and the General Permit Fee. This account is used to support and administer the TCEQ water quality programs.

Watermaster Administration Account (0158) - This account derives revenue from assessments paid by the holders of water rights in the Lower Rio Grande river basin, the Concho river basin, and river basins in South Texas. Water rights assessments are based on the amount of budgeted operating expenditures of the Lower Rio Grande, Concho, and South Texas Watermaster Offices. The account pays the compensation and necessary expenses of the Watermaster Offices.

Texas Spill Response Account (0452) - This State Treasury account was established under Water Code Chapter 26. The account may only be used for cleanup activities related to discharges or spills of hazardous substances into surface waters of the State. The account consists of funds appropriated by the Legislature and any fines, civil penalties or other reimbursements to the account. The account balance may not exceed \$5 million, exclusive of fines and penalties.

TCEQ Occupational Licensing Account (0468) - This account is authorized to administer the State's regulatory and licensing programs for waterworks and wastewater system operators, landscape irrigators, petroleum storage tank professionals and others.

Waste Management Account (0549) - This account receives two thirds of the fees assessed on municipal solid waste disposal in the state. In addition, it receives fees imposed on industrial solid waste disposal, hazardous waste generation, radioactive substances licensing, the Voluntary Clean-Up Program Fee, and numerous other fees. This account pays for regulation of industrial solid and hazardous waste and for related administrative costs incurred by the TCEQ.

Hazardous & Solid Waste Remediation Fee Account (0550) - This account receives revenue from fees imposed on the sale of batteries and disposal of industrial solid or hazardous waste. This account is used for the necessary removal and remedial action at sites which hazardous waste or hazardous substances have been disposed if funds from a liable party, third party or the federal government are insufficient.

Petroleum Storage Tank Remediation Account (0655) - This account receives fees assessed on the bulk delivery of petroleum products. The account may be used to pay expenses associated with the program.

Solid Waste Disposal Fees Account (5000) - This account receives one third of the fees assessed on municipal solid waste disposal in the state, as well as fees on the transport and use of sludge. Revenues deposited to this account are allocated to local and regional solid waste projects.

-UNAUDITED-

Environmental Testing Laboratory Accreditation Account (5065) - This account was created by H.B. 2912, 77th Leg. R.S., to fund the creation of an Environmental Testing Laboratory accreditation program. Revenue deposited to this account is generated by lab accreditation fees.

Texas Emission Reduction Plan Account (5071) - This account receives revenue from surcharges on motor vehicle titles, sales of on- and off-road diesel vehicles, and commercial vehicle registration and inspection. The revenue may only be used to implement and administer programs established under the plan.

Dry Cleaning Facility Release Account (5093) - This account was created by H.B. 1366, 78th Leg. R.S., to receive revenues from fees on dry cleaning establishments and on the purchase of dry cleaning solvents. The revenues are used to fund the cleanup of releases of dry cleaning solvents into the soil or water of the state.

Operating Permit Fees Account (5094) - This account was created by H.B. 1481, 78th Leg. R.S., to receive revenue generated by the Air Emissions Fee to cover the costs of developing and administering the federal permit programs under Title IV or V of the federal Clean Air Act.

Suspense Type Activities Account (0900) - This account provides a temporary depository for money held in suspense pending final disposition. Items held in the account are cleared to the various other accounts or refunded to the payer.

Capital Assets Adjustment Fund Type

The Capital Assets Adjustment fund converts governmental fund types' capital assets from modified accrual to full accrual.

Long-Term Liabilities Adjustment Fund Type

The Long-Term Liabilities Adjustment fund converts governmental fund types' debt from modified accrual to full accrual.

Other Adjustments Fund Type

The Other Adjustments fund converts all other governmental fund type activity from modified accrual to full accrual.

Fiduciary Fund Types

Fiduciary funds account for assets held by the state in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds.

Agency Funds

Agency Funds are used to account for assets held in a custodial capacity for the benefit of other agencies or individuals.

Basis of Accounting

The basis of accounting determines when revenues and expenditures are recognized in the accounts and reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for using the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year-end.

-UNAUDITED-

The State of Texas considers receivables collected within sixty days after year-end to be available and recognizes them as revenues of the current year for fund financial statements prepared on the modified accrual basis. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Governmental adjustment fund types that will build the government-wide financial statements are accounted for using the full accrual basis of accounting. The following activities are recognized in these fund types:

- Capital assets
- Accumulated depreciation
- Unpaid employee compensable leave
- Long-term pollution remediation obligations

Budgets and Budgetary Accounting

The budget is prepared biennially and represents appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act). The Commissioners adopt an annual operating budget and policies consistent with these appropriations. Encumbrance accounting is utilized for budgetary control purposes. Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

Assets, Liabilities and Fund Balances/Net Assets

Assets

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

Receivables

Receivables represent revenue from licenses, fees, permits and federal funds that has been earned but not received. This account is presented net of Allowance for Bad Debts.

Inventories and Prepaid Items

Consumable Inventories includes supplies and postage on hand. The consumption method of accounting is used to account for inventories and prepaid items that appear in the governmental fund types. The cost of these items is expensed when the items are consumed.

Capital Assets

Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year are capitalized. These assets are capitalized at cost or, if purchased, at appraised fair value as of the date of acquisition. Purchases of assets by governmental funds are reported as expenditures. Depreciation is reported on all "exhaustible" assets. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

Liabilities

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Payroll Payable

Payroll Payable represents the liability for August salaries at the balance sheet date for which payment is pending.

-UNAUDITED-

Contracts Retainage Payable

Contract Retainage Payable represents the liability for amounts retained pursuant to contract agreements at the balance sheet date for which payment is pending.

Employees' Compensable Leave

Employees' Compensable Leave represents the liability that becomes due upon the occurrence of relevant events such as resignations, retirements and uses of leave balances by covered employees. Liabilities are reported separately as either current or non-current in the statement of net position. These obligations are normally paid from the same funding source from which each employee's salary or wage compensation was paid.

Pollution Remediation Obligations

Pollution Remediation Obligations represent obligations to address the detrimental effects of existing pollution by participating in pollution remediation activities such as site assessments and cleanups. Pollution Remediation Obligations are accounted for in the long-term liabilities adjustment column, as current (for amounts due within one year) and non-current (for amounts due thereafter). Pollution Remediation Obligations are recognized in the financial statements when an obligating event has occurred and the outlays expected to be incurred to settle those liabilities are reasonably estimable.

Fund Balance/Net Position

“Fund balance” is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the governmental fund statements. “Net position” is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the government-wide, proprietary and fiduciary fund statements.

Fund Balance Components

Fund balances for governmental funds are classified as nonspendable, restricted, committed, assigned or unassigned in the fund financial statements.

- Nonspendable fund balance includes amounts not available to be spent because they are either:
 - Not in spendable form or
 - Legally or contractually required to be maintained intact.
- Restricted fund balance includes those resources that have constraints placed on their use through external parties — such as creditors, grantors, contributors, laws or regulations of other governments — or by law through constitutional provisions or enabling legislation.
- Committed fund balance can be used only for specific purposes pursuant to constraints imposed through legislation passed into law by a formal action of the Texas Legislature, the state's highest level of decision making authority.
- Assigned fund balance includes amounts constrained by the state's intent to be used for specific purposes, but the constraints do not meet the requirements to be reported as either restricted nor committed. Intent is expressed by:
 - The Texas Legislature or
 - A body (for example, a budget or finance committee) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.
- Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that was not assigned to other funds and was not restricted, committed or assigned to specific purposes within the general fund.

-UNAUDITED-

Invested in Capital Assets, Net of Related Debt

This consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bond, notes and other debt that are attributed to the acquisition, construction or improvement of those assets.

Restricted Net Position

Restricted net position results when constraints placed on net resources are either externally imposed by creditors, grantors, contributors and the like or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position

Unrestricted net position consists of net resources that do not meet the definition of the two preceding categories. Unrestricted net position often has constraints on resources that are imposed by management but can be removed or modified.

Interfund Activities and Balances

The agency has the following types of transactions between funds:

- Transfers:
Legally required transfers that are reported when incurred as 'Transfers In' by the recipient fund and as 'Transfers Out' by the disbursing fund.
- Reimbursements:
Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.

NOTE 3: DEPOSITS, INVESTMENTS AND REPURCHASE AGREEMENTS

Deposits of Cash in Bank

The Texas Commission on Environmental Quality reports investments held in the Texas Treasury Safekeeping Trust Company. The Texas Treasury Safekeeping Trust Company is authorized by statute to make investments following the “prudent person rule”. There were no significant violations of legal provisions during the period.

As of August 31, 2014, the carrying amount of deposits was \$50.00 as presented below.

Governmental and Business-Type Activities

Cash in Bank – Carrying Amount	\$	50.00
Cash in Bank (Exh. I)	<u>\$</u>	<u>50.00</u>

Investments

As of August 31, 2014, the fair value of investments are as presented below.

Governmental and Business-Type Activities		Fair Value
Repurchase Agreements-Texas Treasury Safekeeping Trust Co ❶	\$	16,035,844.78
Total	<u>\$</u>	<u>16,035,844.78</u>

Fiduciary Funds		Fair Value
Repurchase Agreements-Texas Treasury Safekeeping Trust Co ❶	\$	2,642,295.46
Total	<u>\$</u>	<u>2,642,295.46</u>

❶ – Repurchase Agreements with the Texas Treasury Safekeeping Trust Company are recorded as Cash Equivalents and as Repurchase Agreements in the Notes, based on Reporting Requirements for Annual Financial Reports of State Agencies and Universities.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. As of August 31, 2014, the agency’s credit quality distribution for securities with credit risk exposure was:

Fund Type	GAAP Fund	Investment Type	AAA	AA	A	BB
09	9999	Repurchase Agreements Texas Treasury Safekeeping Trust Co	2,642,295.46			
01	9999	Repurchase Agreements Texas Treasury Safekeeping Trust Co	16,035,844.78			

-UNAUDITED-

NOTE 4: SHORT-TERM DEBT

Not applicable

NOTE 5: LONG-TERM LIABILITIES**Changes in Long-Term Liabilities**

The following changes occurred in liabilities during the fiscal year ended August 31, 2014.

Governmental Activities	Balance 9/01/13	Additions	Reductions	Balance 8/31/14	Amounts Due Within One Year	Amounts Due Thereafter
Employees' Compensable Leave	\$ 16,260,369.57	\$ 20,992,444.62	\$ 20,746,758.35	\$ 16,506,055.84	\$ 9,221,232.09	\$ 7,284,823.75
Pollution Remediation Obligations	\$ 211,860,544.47	\$ 37,804,852.75	\$ 13,733,870.54	\$ 235,931,526.68	\$ 33,079,579.83	\$ 202,851,946.85
Total Governmental Activities	\$ 228,120,914.04	\$ 58,797,297.37	\$ 34,480,628.89	\$ 252,437,582.52	\$ 42,300,811.92	\$ 210,136,770.60

Employees' Compensable Leave

If a state employee had continuous employment with the state for at least six months, the state employee is entitled to be paid for all unused vacation time accrued in the event of the employee's resignation, dismissal or separation from state employment.

Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the statement of net position. No liability is recorded for non-vesting employees accumulating rights to receive sick pay benefits. This obligation is usually paid from the same funding source(s) from which the employee's salary or wage compensation was paid.

Pollution Remediation ObligationsDry Cleaners

The TCEQ is responsible for collecting fees for a remediation fund designed to help pay for the cleanup of contaminated dry cleaner sites. The fees are generated from the annual registration of facilities and drop stations, as well as from the sale of perchloroethylene and other dry cleaning solvents. The TCEQ receives applications for remediation, and then ranks and prioritizes them for corrective action. Legislation in 2007 established requirements for property owners and preceding property owners who wish to claim benefits from the remediation fund, and authorized a lien against property owners and preceding property owners who fail to pay registration fees due during corrective action. No additional cost recovery is allowed by statute.

The pollution remediation obligation is measured by using the national average cleanup cost, as calculated by the State Coalition for Remediation of Drycleaners. Direct salary and benefit costs are added to the national average, and the total cost is multiplied by the number of active sites. The amount of the estimated pollution remediation assumes that there will be no major increases in the cost of providing these cleanup services. The TCEQ has 177 active sites at fiscal year end, with a total estimated pollution remediation obligation of \$39,133,038.39.

Leaking Petroleum Storage Tanks

The TCEQ oversees cleanups of leaking petroleum storage tanks (LPST). Cleanup costs are paid by the owners' environmental liability insurance or other financial assurance mechanisms or from their own funds. If the responsible party is unknown or is unwilling or financially unable to do the work, state and federal funds are used to pay for the corrective actions. Revenue is generated from a fee on the delivery of petroleum products removed from bulk storage

-UNAUDITED-

facilities. State statutes allow cost recovery from the current owner or any previous responsible owner; however, to date this has not been necessary.

The TCEQ calculates expected outlays related to this pollution remediation by establishing the average cost of cleanup and multiplying that cost by the number of active sites, plus direct salaries and benefits for the duration of the cleanup. This methodology is based upon historical experience in estimating these cleanups. At fiscal year end there were 395 active State Lead sites, with a total estimated pollution remediation obligation of \$37,040,291.62. The amount of the estimated pollution remediation assumes that there will be no major increases in the cost of providing these cleanup services.

Superfund

The TCEQ Superfund Section includes the State Superfund, Federal Superfund, Superfund Site Discovery and Assessment (SSDAP) and the Preliminary Assessment/Site Inspection (PA/SI) Programs. On behalf of the TCEQ, the Section identifies, ranks, and addresses sites contaminated with hazardous substances, which no parties are willing to address through a permit, corrective action, voluntary cleanup or enforcement program. These sites are identified through referral from internal and external groups such as TCEQ Enforcement, TCEQ Regional Offices, TCEQ Water Supply Division, public complaints and the United States Environmental Protection Agency (EPA).

When a site is referred to the TCEQ Superfund Section, one of two events occurs: either the SSDAP performs the initial assessment and ranking of the site, or the PA/SI Program evaluates the site for the Federal Superfund Program. Sites evaluated by the PA/SI program are referred to the SSDAP if they do not meet the criteria for the Federal Superfund Program, or if EPA does not include them in the Federal Superfund Program. Sites referred to SSDAP are assessed and ranked for potential referral to the State Superfund Program.

The objective of the State and Federal Superfund Programs is to address environmental problems associated with the imminent or substantial endangerment to public health and safety or the environment due to a release or threatened release of hazardous substances. The State and Federal Superfund Programs meet this objective by investigating and evaluating the release or threatened release of hazardous substances, identifying responsible parties, and remediating State and Federal Superfund sites.

The Pollution Remediation Obligation for Superfund sites was calculated by estimating the remediation obligations for active Superfund Section sites in Texas. The following sites or site phases were excluded from the estimation:

- Potentially Responsible Party (PRP) funded investigations and cleanups, because these sites are funded by PRPs;
- Federal sites' costs associated with the Remedial Investigation (RI), Feasibility Study (FS), and Remedial Design (RD), because these phases are funded through the 100% federal match grant coverage; and
- SSDAP and PA/SI sites in the queue for evaluation under the State or Federal Superfund Program, because it is not known if these sites will require cleanup under the Superfund Programs.

Site estimates were based on budget projections to cover necessary activities for the upcoming fiscal year, along with estimated costs for future years and phases, plus direct salaries and benefits. For sites without available budget projections, estimated costs were provided for the Superfund phases of investigation and cleanup, based on staff experience with similar sites. Site estimates may change drastically from one year to another as the investigations progress and a better understanding of site conditions is obtained. The estimate of liabilities is limited to sites that have been, or are, being assessed and ranked for the Superfund program. Cost recovery activities during FY14 resulted in collections of \$1,761,690.35.

At the end of FY14, Texas had 64 sites with Pollution Remediation Obligations in the State and Federal Superfund programs and 7 sites that required an immediate response or removal action. The current total Superfund liability, as of August 31, 2014, is \$159,758,196.67.

NOTE 13: CONTINUANCE SUBJECT TO REVIEW

Under the Texas Sunset Act, the Texas Commission on Environmental Quality will be abolished effective September 1, 2023, unless continued in existence by the 88th Legislature as provided by the Act. If abolished, the agency may continue until September 1, 2024, to close out its operations.

-UNAUDITED-

NOTE 14: ADJUSTMENTS TO FUND BALANCES AND NET POSITION

Not Applicable

NOTE 15: CONTINGENCIES AND COMMITMENTS

The Texas Commission on Environmental Quality receives federal financial assistance for specific purposes that are subject to review or audit by the federal grantor agencies. Entitlement to this assistance is generally conditional upon compliance with the terms and conditions of grant agreements and applicable federal regulations, including the expenditure of assistance for allowable purposes. Such audits could lead to requests for reimbursements to grantor agencies for expenditures disallowed under the terms of the grant. Based on prior experience, management believes such disallowance, if any, will be immaterial.

The TCEQ is involved in several administrative claims proceedings and lawsuits that could result in possible liabilities in the event of an adverse ruling. However, while adverse rulings regarding any of these claims are possible, it is management's opinion that the possibility of adverse rulings is unlikely.

As of August 31, 2014, the TCEQ encumbered expenditures in governmental funds for signed contracts and purchase orders as presented in the table below:

Appropriated Fund Number	Appropriated Account Name	Encumbrance	Available Fund Balance	Total Fund Balance
0001	General Revenue	\$ 3,083,668.45	\$ 19,686,325.64	\$ 22,769,994.09
0088	Low Level Radioactive	209.55	32,640,137.31	32,640,346.86
0146	Used Oil Recycling	3,971.06	16,276,853.47	16,280,824.53
0151	Clean Air	11,001,884.43	176,018,223.41	187,020,107.84
0153	Water Resource Management	11,563,263.43	2,639,913.06	14,203,176.49
0549	Waste Management	883,790.50	31,124,632.66	32,008,423.16
0550	Hazardous & Solid Waste Remediation Fee	8,445,170.95	34,222,030.19	42,667,201.14
0655	Petroleum Storage Tank Remediation	7,226,064.86	144,511,803.86	151,737,868.72
5000	Solid Waste Disposal Fee	1,397.40	118,473,381.95	118,474,779.35
5071	Texas Emissions Reduction Plan	83,187,406.19	871,798,229.61	954,985,635.80
5093	Dry Cleaning Facility Release	606,510.66	19,880,487.23	20,486,997.89
5094	Operating Permit Fees	898,387.98	9,442,272.41	10,340,660.39

NOTE 16: SUBSEQUENT EVENTS

Not Applicable

NOTE 17: RISK MANAGEMENT

The TCEQ is exposed to a variety of claims resulting from the performance of its duties. The agency assumes substantially all risks due to the performance of its duties. Currently there is no purchase of commercial insurance nor is the agency involved in any risk pools with other government entities.

NOTE 18: MANAGEMENT'S DISCUSSION AND ANALYSIS

The TCEQ's overall fund balance increased \$216.4 million from the FY 2013 adjusted ending balance of \$1.4 billion to the FY 2014 balance of \$1.6 billion. Major contributors affecting the change include the following accounts.

-UNAUDITED-

The General Revenue Account (0001) fund balance increased \$6 million in FY 2014 primarily because of additional appropriations authorized by the 83rd Legislature for litigation expenses for the Rio Grande River Compact.

The Used Oil Recycling Account (0146) fund balance increased \$1.2 million in FY 2014 because annual revenue deposited into the fund exceeds the annual level of appropriations authorized from this account.

The Clean Air Account (0151) increase of \$49.5 million is the result of decreased appropriations authorized by the 83rd Legislature for the Low-Income Vehicle Repair Assistance Program (LIRAP).

The Water Resource Management Account (0153) ended the fiscal year with a decrease of \$3.5 million in fund balance. The decrease is the result of fund obligations exceeding the annual revenue deposited into this account.

The Waste Management Account (0549) increase of \$2.2 million in fund balance is due to annual revenue deposited into this account exceeding appropriations.

The Hazardous & Solid Waste Remediation Fee Account (0550) ended the year with a \$2.3 million decrease in fund balance. The decrease in fund balance is the result of fund obligations, especially professional remediation services, that exceed annual revenue deposited into this account.

The Petroleum Storage Tank Account (0655) ended the year with a \$1.5 million increase in fund balance. The increase is due to annual revenue deposited into this account exceeding the appropriations.

The Solid Waste Disposal Fee Account (5000) fund balance increased \$4.3 million in FY 2014 because annual revenue deposited into the fund exceeds the annual level of appropriations authorized from this account. In FY 2013 the fund balance increased \$11.4 million. The reduced fund balance growth is the result of a revenue allocation change between this fund and the Waste Management Account (0549). The 83rd Legislature reduced the allocation from 50/50 to 67/33, with only 33% of the revenue deposited to the Solid Waste Disposal Fee Account. This accounts for the slowing fund balance growth.

The Texas Emission Reduction Plan Account (5071) fund balance increased \$155 million in FY 2014. The increase is due to annual revenue deposited into the account exceeding the appropriations. Additionally, overall TERP revenue increased 9%, largely due to increased economic activity.

The Operating Permit Fees Account (5094) ended the year with a \$1.9 million increase in fund balance. The increase in the fund balance is the result of a rate change for the FY 2014 billing.

NOTE 19: THE FINANCIAL REPORTING ENTITY
