SIC Code:

### NEW OWNER INFORMATION

Company Name: \_\_\_\_\_

Contact person: \_\_\_\_\_

Phone: \_\_\_\_\_

(If any of the above items need to be updated, please indicate those changes in the comments box below.)

Comments/Additional information:

Helpful Emissions/Inspection fee information can be found here:  
<http://www.tceq.texas.gov/airquality/point-source-ei/air-fees.html>

### **INSPECTION FEE BASIS INFORMATION:**

The inspection fee applies to each site that contains one or more of the types of plants, facilities, and/or processes described in 30 TAC §101.24(f).

If more than one Standard Industrial Classification (SIC) category can apply to a site, provide the SIC category that has the highest FY 2003 base inspection fee. If the SIC category has an applicable tier letter associated with the SIC code (i.e., A, B, or C), provide the tier letter that is applicable for the plant, facility, and/or processes. If a site does not meet one of the applicable SIC categories or its associating tier description, the SIC Code/Tier Letter should be provided as NOT APPLICABLE and an explanation should be provided in the comments box above.

SIC Code/Tier Letter: \_\_\_\_\_

**EMISSIONS FEE BASIS INFORMATION:**

The following information is required to determine if an owner or operator of a site is subject to being assessed an emissions fee per 30 TAC §101.27(a):

**Is the site required to obtain/possess a Title V permit? .....YES or NO**

If you answered “Yes” to the question above; allowable levels **OR** actual emissions at the account must be reported. Allowable levels are those limits as specified in an enforceable document such as a permit, certified registration of emissions, or Commission Order that are in effect during the fiscal year that a fee is due. Actual emissions are the emissions of all regulated pollutants emitted from the account during the last full calendar year preceding the beginning of the fiscal year that a fee is due including emissions from emissions events and maintenance, startup, and shutdown activities. Under no circumstances may the fee basis be less than the actual emissions at the account. For additional guidance in completing the emissions table below, please do not hesitate to contact your customer service representative at (512) 239-1459.

If you answered “No” to the question listed above, the emissions for the site are not required to be reported in the table below.

<b>Regulated Pollutants (Only add others that cannot be categorized as one of these.)</b>	<b>Allowable Emissions (Tons Per Year)</b>	<b>Actual Emissions (Tons Per Year)</b>	<b>Maintenance, Startup, and Shutdown Emissions (Tons Per Year)</b>	<b>Emission Events (Tons Per Year)</b>
Sulfur Dioxide (SO <sub>2</sub> )				
Nitrogen Oxides (NO <sub>x</sub> )				
Carbon Monoxide (CO)				
Volatile Organic Compounds (VOC)				
Particulate Matter (PM)				
Other				

If the site is subject to the air emissions fee and the site **is not** required to submit an Emissions Inventory to the agency in accordance with 30 TAC §101.10; actual production, throughput, or measurement records **must** be submitted along with complete documentation of the calculation methods.

If the site is subject to the air emissions fee and permitted allowable levels were reported above, please submit a copy of each current Maximum Allowable Emissions Rate Table for all active Permits and/or a copy of any authorized certified emissions for the site.

**\*\*\*DO NOT REMIT YOUR FEE PAYMENT AT THIS TIME, FEE INVOICES WILL BE SENT IN OCTOBER\*\*\***  
Return this form along with any supplemental documentation and/or emission calculations to the following mailing address:
