Austin, TX 78711-3087

Re: Calendar Year _____ Emissions Inventory
Company Name: _____
Site Name: _____
TCEQ RN: _____, TCEQ Air Account No.: _____

Dear Mr. Cauble:

Pursuant to Texas Clean Air Act Section 382.014 and Title 30, Texas Administrative Code (30 TAC), Section 101.10, the Texas Commission on Environmental Quality (TCEQ) has requested that an emissions inventory be submitted for calendar year _____ for the above referenced site. Upon reviewing the applicability requirements as presented in 30 TAC Section 101.10, I certify the referenced account does not meet the applicability requirements of 30 TAC Section 101.10 for the current inventory year.

Choose one of the following:

Please keep this site on the annual emissions inventory update mailing list.

I understand that:

- The TCEQ will continue to request an emissions inventory update each calendar year.
- I (or my representative) must submit an updated emission inventory or an Inapplicability Notification letter each calendar year until I (or my representative) submit a written request to be removed from the mailing list.
- If emissions fees apply to the site, the TCEQ will base the amount of the fee it assesses on the site's potential to emit (PTE) levels unless I (or my representative) submit updated emissions for this site.

Please remove this site from the annual emissions inventory update mailing list.

I understand that all of the following apply:

- The TCEQ can only remove this site from the mailing list if its latest annual emissions totals, as shown in the State of Texas Air Reporting System (STARS) database, and the PTE levels and the actual annual emissions for the current inventory year are below the required levels for emissions inventory reporting as described in 30 TAC Subsection 101.10(a). Otherwise, I (or my representative) will have to submit an updated emissions inventory demonstrating that the emissions are below those required levels, along with representative sample calculations, before this site is removed from the mailing list.
- If the site meets the reporting requirements of 30 TAC Section 101.10 in the future, it is my (or my representative's) responsibility to submit an annual emissions inventory update by March 31 following the most recent full calendar year in which the site falls under those requirements.
- If emissions fees apply to the site, the TCEQ will base the amount of the fee it assesses on the site's PTE levels unless I (or my representative) submit updated emissions for this site.

Upon request, I am prepared to submit supporting documentation. This may include, but may not be limited to, representative sample calculations, stack-test results, copies of continuous emissions monitoring system reports, and copies of applicable permit maximum allowable emission rate tables (MAERTs) or, for sources not listed on any MAERT, the calculations used in determining their PTE.

If you have any questions concerning the determination of the status of this site or the calculation methodologies used, please contact _____ at _____ or via e-mail at _____.

Sincerely,

Responsible Official (print) _____ Title (print) _____
