Use the Path Deactivation Request form to unlink an active FIN from the EPN. Please give a reason for each set of deactivation requests. Path deactivations cannot be completed using the State of Texas Electronic Emissions Reporting System (STEERS)-Annual Emissions Inventory Report (AEIR) system.

Example: (FIN) TANK previously vented to the atmosphere through (EPN) TANKSTK but now only vents to (EPN) FLARE. Use this form to communicate that path (FIN) TANK / (EPN) TANKSTK needs be deactivated.

The new path (FIN) TANK / (EPN) FLARE can be added using the STEERS-AEIR system. Please see the current Web-based EI Reporting Instructions on the Point Source EI Web page for detailed instructions.
