

# SIP Revision: Texas, August 15, 1976

This page contains the complete text of the Texas State Implementation Plan (SIP), based on the original Texas SIP, dated January 26, 1972, and reflects all revisions made up to August 15, 1976.

## Summary of the SIP Revision

**Adoption Date:** 08/15/1976

**EPA Approval Date (Partial):** 04/20/1977 (42 FR 20462), 06/01/1977 (42 FR 27893), and 07/06/1977 (42 FR 34517)

**Background:** The Texas SIP was revised on August 15, 1975, February 15, 1976, and August 15, 1976.

**Key Changes:** The August 15, 1975, SIP revision included updated compliance abatement schedules, operational data updates, emergency episode procedure updates, revisions to rules for emergency episode plans, and updates to the permit system to include new procedures incorporating New Source Performance Standards (NSPS) and National Emission Standards for Hazardous Air Pollutants (NESHAPS).

The February 15, 1976, SIP revision included an updated Legal Authority, updated compliance schedules, updated information on emergency action staff members, a revision to the review questions used in Permit System Procedures, an updated address list for the Air Quality Control Regions, and revised rules for the control of pollution from smoke, visible emissions, and particulate matter (PM).

The August 15, 1976, SIP revision included an updated compliance abatement schedule and a revised air quality surveillance plan.
