

**SPRY On-Road Haul/Yard Trucks to Non-Road Yard Trucks
Maximum Eligible Grant Amount Table**

Use the Gross Vehicle Weight Rating (GVWR), Ignition Type and Emission Rate of the vehicle/equipment being replaced to determine the maximum eligible grant amount for the new non-road vehicle/equipment. All new non-road vehicle/equipment usage must have 75% or 100% usage.

*Ignition Types: CI = Compression Ignition (e.g., diesel), SI = Spark Ignition (e.g., CNG), Zero = Electric

| Old Vehicle/Equipment | | | New CI Non-Road Yard Trucks | |
|---------------------------|----------------|---------------|-----------------------------|-----------|
