I, the undersigned, have inspected the equipment listed above. The engine starts and runs properly and the equipment/engine is in good operating condition, capable of performing routine business activity. In my professional opinion, the equipment/engine is able to perform the functions normally expected for this type of equipment/engine and could be expected to operate for another five years.

I understand that intentional falsification of these forms will be prosecuted to the extent allowed under the law and may be used as an adverse factor in the future grant selection decisions.

Section 7: Program Certifications

This section includes specific requirements and statements for funding under TxVEMP. These terms will be included in any contract awarded by TCEQ from this application. TCEQ urges applicants to download a copy of the example grant contract from www.TexasVWFund.org and review it so that any questions can be discussed early in the application review process. TCEQ will not normally change the contract language to deal with individual requests from grant recipients.

By signing this application, you understand and certify compliance with all the statements below, as well as with any state statutes, regulations, policies, guidelines, and requirements as they relate to the application, acceptance, and use of funds for this project.

- 1. Ownership.** The equipment has been continuously owned for the preceding two years. For on-road vehicles, the applicant has been listed on the front of the title document for the preceding two years.
- 2. Operation & Registration.** The equipment has been continuously located and used in Texas for the preceding two years. In addition, on-road vehicles have been continuously registered for operation in Texas for the preceding two years. Applicants with apportioned vehicles must submit quarterly usage summaries that include accurate dates and miles driven in each registered state.
- 3. Condition.** The equipment is currently in good operating condition and capable of performing its primary function in the routine operations of the applicant at the time of signature. To the best of the applicant's knowledge, the equipment can continue to perform its primary function for the duration of the Activity Life, taking into account normal maintenance, repairs and upkeep.
- 4. Continued Operation and Use.** If the grant funds were not available, the applicant expects to otherwise continue to operate the equipment in Texas for at least the duration of the Activity Life, and the applicant otherwise would not have planned to replace the equipment.
- 5. Destruction.** The applicant has the legal authority to complete the approved method of destruction (disposition) of the equipment or engine being replaced.
- 6. Not Otherwise Required.** To the best of the applicant's knowledge, the proposed activities are not required by any state or federal law, rule or regulation, memorandum of agreement, or other legally binding contract.
- 7. No Emissions Reductions Credits.** Activities funded under this program are not eligible to generate marketable credits under state or federal emissions reduction credit averaging, banking, or trading programs. If the project is funded, the applicant waives, for all time, its right to claim or apply for any emissions reduction credits from the use of the low-emission technology funded under TxVEMP.
- 8. Not to exceed 100% of equipment cost.** The amount of the TxVEMP grant award plus any other public financial assistance, tax credits or deductions, or other grants may not exceed the total capital cost of the equipment or vehicles.

Texas Volkswagen Environmental Mitigation Program (TxVEMP)

9. Failure to achieve the NO_x emissions reductions projected in the designated eligible counties for this project may require the grantee to return all or a share of the grant funds.

Emission reductions will be based on the grant equipment being used for the percentage of annual hours, miles, or fuel use that occurs in the eligible counties, as designated in the application for that activity. Failure to operate the grant equipment for the percentage of annual use in the eligible counties as designated in the application may result in the TCEQ requiring return of all or a share of the grant funds.

10. Requirement to monitor. The applicant will monitor the use of the grant-funded equipment or infrastructure over the designated Activity Life. The applicant agrees to provide information on the use of the equipment upon request of the TCEQ.

11. Insurance Coverage. The applicant will maintain, for the term of the activity, property loss insurance or self-insurance coverage on any equipment or infrastructure acquired, leased, repowered, retrofitted, or constructed using these funds, in an amount enough to reimburse the TxVEMP grant award.

12. Legal Authority. The applicant has legal authority in the State of Texas to apply for the grant. The applicant's governing body has authorized the filing of the application, understands these requirements and certifications, and has authorized the person identified as the authorized official to submit this application and to provide such additional information as may be required.

13. Uniform Grant Management Standards. The applicant will comply with the Uniform Grant Management Standards(UGMS), adopted June 2004 by the Texas Comptroller of Public Accounts in accordance with Chapter 783, Texas Government Code. This document is available at: <http://www.window.state.tx.us/procurement/catrad/ugms.pdf>

14. Procurement of Goods and Services. In procuring goods and services, the applicant will comply with Part II. Cost Principles for State and Local Governments and Other Affected Parties and Part III. State Uniform Administrative Requirements for Grants of the UGMS. All procurement transactions will be conducted in a manner providing full and open competition.

15. Historically Underutilized Businesses (HUBs). Qualified HUBs, as defined and designated under state law, shall have the maximum practicable opportunity to participate in the performance of the work arising out of this project.

16. Conflict of Interest. The applicant has not given, offered to give, nor intends to give any economic opportunity, future employment, gift, loan, gratuity, special discount, trip, favor, or service to a public servant in connection with the submitted application. All purchase decisions must be based on sound business decisions and arm's length bargaining.

17. Nondiscrimination. The applicant will comply with all State and Federal statutes relating to nondiscrimination.

18. Grant Administration. The applicant will maintain an appropriate grant administration system to ensure that all terms, conditions, and specifications of the grant, including these certifications and assurances, are met.

Texas Volkswagen Environmental Mitigation Program (TxVEMP)

19. Audit. Acceptance of funds under this program acts as acceptance of the authority of the State Auditor's Office, or any successor agency, to conduct an audit on investigation in connection with those funds. The applicant or other entity that may receive funds directly or indirectly under TxVEMP must provide the state auditor with access to any information the state auditor considers relevant to the investigation or audit. Applicant will include this clause concerning the authority to audit funds received indirectly and the requirement to cooperate is included in any subcontract it awards.

20. Debt to the State. The applicant is not indebted to the state or has an outstanding tax delinquency. The applicant must comply with all State and Federal tax laws and fee requirements and is solely responsible for filing all State and Federal tax and fee forms.

22. Contracting with an Executive of a State Agency. Under Government Code § 669.003, relating to contracting with an executive of a state agency, applicant represents that no person who, in the past four years, served as an executive of the Texas Commission on Environmental Quality (TCEQ) or any other state agency, was involved with or has any interest in this application. If applicant employs or has used the services of a former executive head of TCEQ or other state agency, the applicant shall provide the following information: name of former executive, name of state agency, date of separation from state agency, position with applicant, and date of employment with applicant.

23. Debarment. The applicant certifies that the applying entity and its principals are eligible to participate in this transaction and have not been subjected to suspension, debarment, or similar ineligibility determined by any federal, state or local governmental entity.

24. The applicant has not been adjudicated during the preceding three-year period to have committed substantive, non-clerical violations resulting in an actual release of hazardous waste that presented an imminent and substantial danger to the public health and safety or the environment.

25. The applicant, nor any of its officers, have been adjudicated by a court of law to have violated the Texas Deceptive Trade Practices Act.

26. If any of these certifications change between submittal of the Application and award of a contract or cancellation of the Solicitation, you will promptly notify TCEQ.
