Subject: Use of VW Settlement Money

Good Day TCEQ,

As a resident of North Texas (Dallas area) and an electric vehicle owner, I hope that TCEQ will spend the VW settlement money to add fast charging capabilities along major highways in Texas.

Our family frequently travels between Dallas, Austin, San Antonio, Houston and Galveston. If there were plentiful electric charging stations between these metro areas, they will help move more people toward electric transportation.

I hope TCEQ will put the money toward electric charging infrastructure - DC fast charge specifically.

Thank you,
Anthony Han
