**Subject:** VW settlement and legal exposure

Dear TCEQ,

I would highly recommend that you not use VW "Diesel" Settlement funds to fund any "Clean" diesel trucks.

Given that "clean "diesel is not clean when driven at start and stop speeds or in congested traffic.

See health effects on children from particulate matter:

<https://www.sciencedaily.com/releases/2014/09/140910093223.htm>

After VW, I believe trial lawyers are waiting in the wings to go after diesel polluters and this might open up government agencies to legal exposure.

Regards,

Robin
